

Plico is a 4-leg all purpose folding table with a well engineered user intuitive mechanism. When folded Plico is just 78 mm in thickness enabling as many as 15 tables to be stacked flat on the purpose designed trolley; when standing on all 4 legs it becomes a great looking table ready for use in the corporate restaurant with Genus chairs or in the training, meeting and conference facility with 40/4. Plico's ingenious spring loaded 'offset' folding mechanism prevents leg clash and enables folding tables as small as 1200 x 600 mm to be specified.

TESTING AND WARRANTY

Plico is tested to DS/EN 15372:2008, level 2 and is appropriate for 'general contract use', and carries the HOWE 5 year warranty.

Edge detail

1. Matching ABS on melamine and laminate tops
2. 3 mm solid wood on veneer tops
3. Bumper edge on veneer and laminate tops
4. Open MDF-edge on linoleum tops

Adjustable glide - same design detail as Genus chairs
