

SIMPLA

PRODUCT DESCRIPTION

SPACE-SAVING SIMPLICITY

There are two key elements to the Simpla design brief. Form and function. In terms of form, Simpla is designed to be equally at home in modern buildings made of steel and glass, as well as older renovated buildings. And in terms of function, Simpla is light enough to be reconfigured by just one person. The result of this harmony between form and function is a stable, two-piece table with a lift-off top that is easily manageable. Simpla thus has superb space-saving attributes designed to easily accommodate a small space using a minimum of time and effort.

ENVIRONMENTAL AMBITIONS AND HEALTHY DECISIONS

Taking a genuine interest in our surroundings is far more than just a noble idea. It is deeply ingrained in HOWE's strategic thinking. Our long-lasting, space-optimising and multi-usage furniture solutions means fewer resources needed; and thus fewer effects on the environment. Thus, our strategic thinking also contributes to the overall LEED-credit.

We have summarised this mind-set in the concept 'GREENTHINKING' which constantly reminds us to act responsibly vis-à-vis our surroundings, be it our business partners or the natural world.

FEATURES

SUPPLIERS

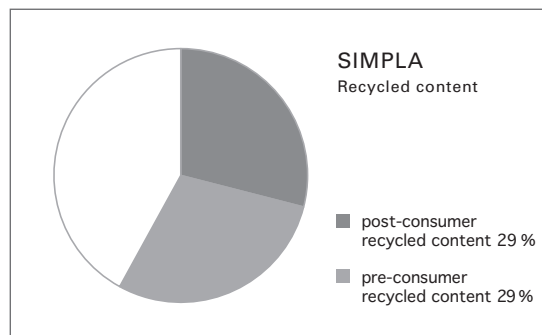

HOWE works closely together with our suppliers to continuously reduce our products' impact on the environment. HOWE is thus setting high environmental demands for both HOWE and our suppliers to comply with.

VOC

The Simpla laminated table top emits less than 0.04 mg/m³ formaldehyde which is 69% below the limit value of the E1 standard. What's more, the Simpla laminated table top emits less than 5 µg/m³ of any other Volatile Organic Compound (VOC) and therefore ensures a healthy indoor air quality.

A SUSTAINABLE TABLE BASE

All steel components of the Simpla table base are produced from 100% recycled material and the table base is 100% recyclable at the end of the product's life.

Simpla is comprised of a minimum of 58% recycled materials. This breaks down to 29% post-consumer recycled content and 29% pre-consumer recycled content.

RECYCLABLE PACKAGING

The packaging materials used for Simpla include 94% corrugated cardboard and 6% polyethylene plastic sheets. This means that the packaging is 100% recyclable. The cardboard used for packaging is produced from up to 25% recycled materials and repeated recycling of the cardboard is possible.

Did you know...

- that Simpla is 48% recyclable at the end of the product's life?
- that Simpla contains no PVC, which goes for all HOWE products?
- that Simpla is space-saving and thus resource saving both during transport and use?
- that Simpla is a combination of timeless and durable design?
- that Simpla is cost efficient and replacements of components are easily manageable?
- that Simpla is easy to disassemble for recycling?
- that Simpla has a 5 year warranty?
