DESIGN

Etoile is classic Belle Epoque for those who appreciate tradition in harmony with modern life. Sophisticated and subtle, each elegant curve and detail represent exemplary European heritage and hand craftsmanship; the epitome of luxury for the bath.

FEATURES

Engineered to industrial standards while maintaining an elegance and beauty fit for most luxurious master suite

Labor intensive construction: cast brass arms, solid brass bars, turned brass finial knobs which have been highly polished then assembled and reinforced with threaded finial knobs

The finial knob is in keeping with our Etoile hardware collection

Recalling the simple sophistication of a French hotel's master suite, the hotel rack provides a handsome alternative to towel bars

The hotel rack is well suited to small spaces allowing for extra storage of towels and baskets above a water closet or bathtub
