The Falcon Advantage

CAST IRON BASES: DURABLE AND ENVIRONMENTALLY SOUND

- Made from 98% recycled grey iron.
- Solid cast iron (not hollow), makes the base plates dent proof.
- Multiple glide options designed to meet all flooring requirements.
- Bases are drilled and tapped for glides. We do not use glide inserts which can easily break.
- J-Series steel bases offer fully welded construction; perfect for use in high abuse or extra heavy table tops such as stone.
- Proven track record of 51 years, the longest in the industry.

BASE FINISHES: STRONG, SAFE, AND BEAUTIFUL

- Environmentally responsible, blended epoxy and polyester based powdercoat.
- Unique phosphate washing system allows powdercoat to permanently adhere to base withstanding years of use.
- Heavy nickel undercoat is used before the plating process. This important step creates our high-quality finish..

TABLE TOPS: CRAFTSMANSHIP AND DESIGN

- 45lb high-density recycled engineered core provides durability.
- Use of phenolic backing sheet prevents delamination, warping, and surface deflection.
- Mortise and tenon wood edges are durable, while minimizing dirt grabbing gaps.
- High quality finish, consisting of one sealer and two conversion varnish top coats, creates a beautiful and durable matte finish.
- Turn your vision into reality™. We are able to manufacture any size or shape table with multiple non-standard material options.
