

9 INSTITUTIONAL SHOWER MODULE A 4242.02G

One Piece Shower Module Neo-Corner Cast Acrylic

FEATURES

- **A 4242.02G**

The unit is molded with a shampoo/soap shelf centered on the back wall. Shower modules shall be pre-drilled for a valve and a handheld shower head when factory supplies components. All units have an anti-skid floor treatment.

Unit must be set in a mortar base, leveled and any clearances between the opening and the unit be filled with mortar. Shimming is necessary. It is recommended that a floor drain at or near the entrance to the shower be included.

The factory supplied components are to include two stainless steel vertical grab bars, and a stainless steel curtain rod.

The unit is thermoformed from continuous cast acrylic sheet into a one piece seamless unit. The unit is reinforced with a composite matrix. The unit has a backside fire rating of "A" and a flame spread of 25.

- **A 4242.02F**

Same as above with fold-up seat with white phenolic bench.

NOTES

- Anti-skid floor treatment meets performance requirements of ASTM F-462-78.
- The basic shower conforms to ANSI Z124.2.
- Nominal Dimensions: Inside: 42" x 34"
Outside: 43 1/2" x 35"
Roughing-In: 44" x 35 1/2"
- Factory installed components are provided with additional back reinforcements to provide code complying structural integrity. In addition, these components are sealed from the backside.
