

**STONE KONVERSE BY PRISMATIQUE**

Stone Konverse tables combine natural elegance, durability and affordability for conference room environments. Marble or granite top surfaces can include technology connection units with table bases providing concealed access panels for electrical/communications interface.

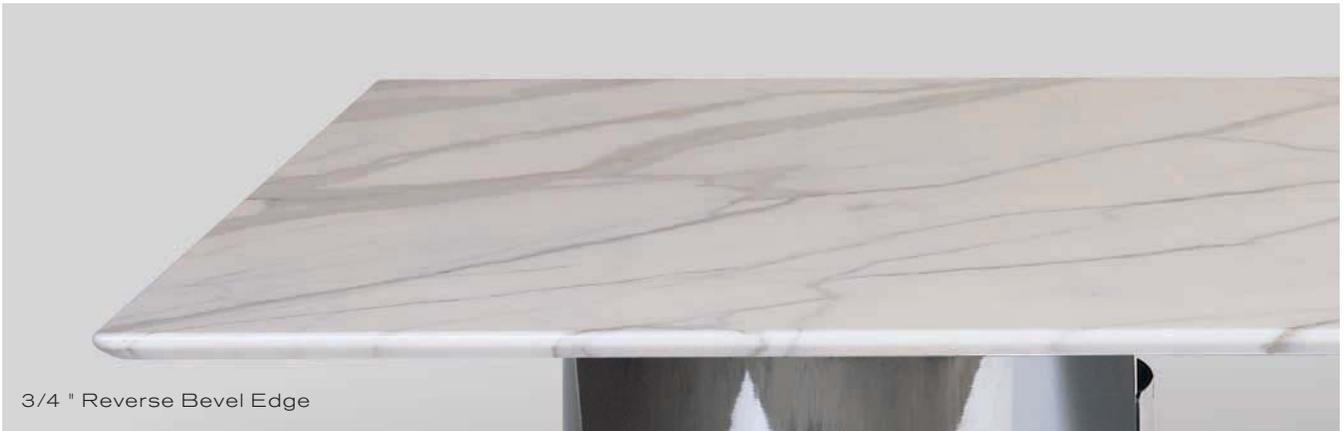

**Above:** 60" Round granite table top with 1 1/2" square edge and pewter Colora Drum base.

**Right Above:** 108" x 48" Rectangle marble table with 3/4" reverse bevel edge and polished chrome Drum base.

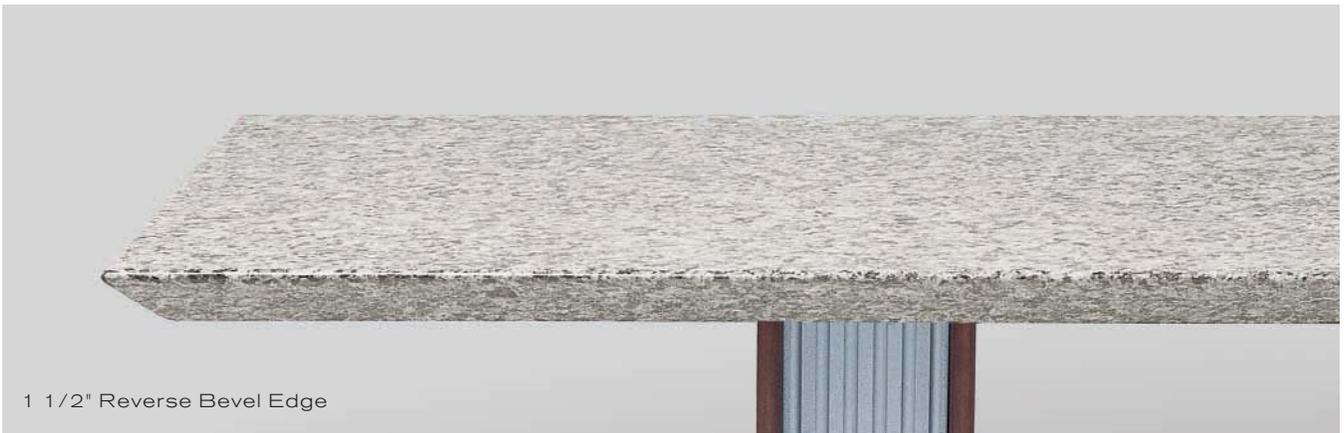

**Right Below:** 120" x 60" Rectangle granite table with 1 1/2" square edge profile, satin chrome Drum base and Interface power and communication units.

MARBLE AND GRANITE TOP EDGE PROFILES

3/4 " Reverse Bevel Edge

1 1/2" Reverse Bevel Edge

3/4" Bullnose Edge

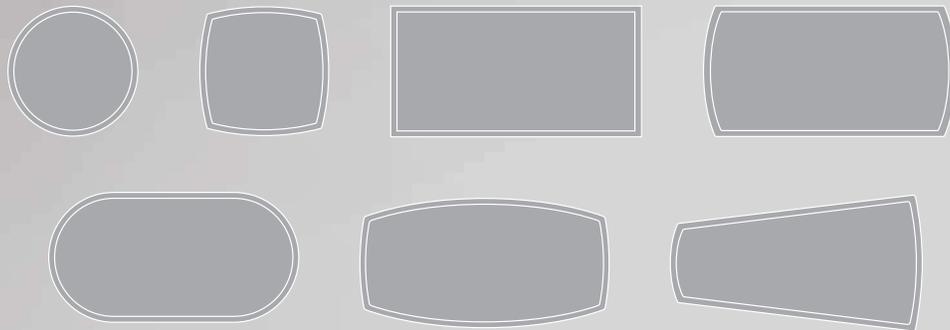

1 1/2" Bullnose Edge

**Right:** 1 1/2" Square Edge

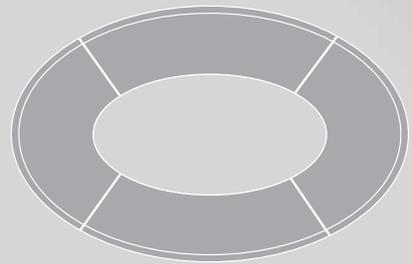

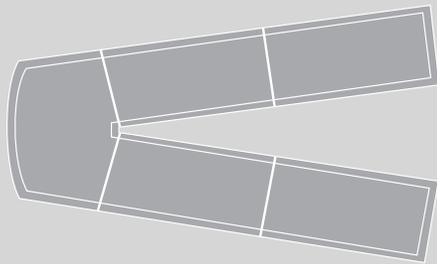

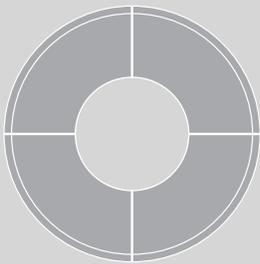

Enjoy the freedom to select any marble or granite variety – specify from five edge profiles, three base types, seven standard shapes and multiple sizes. Custom dimensions and shapes are easily accommodated.

**Above:** 60" Round granite table with square edge profile and Cross Panel base in Colora finish.

Standard Stone Konverse table shapes include round, arced square, rectangle, arced rectangle, racetrack, arced boat and arced wedge. Sizes range from 42" to 240". Large seating capacities are further accommodated in custom modular shapes and dimensions including video conferencing configuration.

**Above:** 168" x 60" Rectangle table in granite with 3/4" reverse bevel edge and dark walnut Panel bases with silver Colora trim.

Classic T and Cross base designs are refined with a sculpted curve end detail and offered in polished or satin chrome, bronze and Colora finishes.

**Above:** 84" x 42" Arced Rectangle marble table with 3/4" bullnose edge and polished chrome T bases with Interface Power and Communication Unit.

**Right:** 48" Round marble table with 3/4" bullnose edge and bronze finish base.

Stone Konverse tables blend high image aesthetics with functional performance – easily incorporating the technology requirements of today's conference rooms.

**Above:** 48" Arced Square granite table with 3/4" reverse bevel edge, Interface power and communication unit and dark walnut Drum base.

**Electrical Access**

Surface connections to power, communication and presentation modules are housed in Interface and Interface Jr. Units. Both are equipped with flush, wing shaped extruded aluminum flip-up access doors in Colora (21 color choices) finish.

**Far Left and Middle:** Interface Jr. Unit contains 2 power outlets and up to 3 voice/data/presentation jacks.

**Above:** Interface Unit with 4 outlets and up to 6 communication jacks.

**Cable Management/Drum Base**

Drum bases feature space for cables with easy access for wire management through removable and reversible side access panels. Floor monuments can be located inside or adjacent to bases.

**Snake Wire Manager**

Vertical cable housing for Sculpted T base tables allows connections to floor monuments. In black or silver.

**Cable Management/Panel Base**

Panel and Cross Panel bases have removable side panels and oversized cone shaped glides that provide cable guidance within and outside table bases. The wire basket is utilized to store surplus cables.

**All Inclusive Construction**

Precise engineering coordinates all materials to provide a complete table design from stone top to internal framework to structural bases.
