

Photoluminescent Self Adhesive Tapes

A simple and effective alternative to traditional emergency lighting systems.

All premises should have adequate escape route illumination, in order to safeguard the evacuation of employees in an emergency situation.

A formal risk assessment should take into consideration, the consequences and inherent risk in power failure and blackout scenario caused when smoke obscures the ceiling lighting.

JALITE AAA self adhesive tapes are an ideal cost effective solution, providing exceptional high initial brightness and excellent longevity of luminance performance, assisting employees to clearly identify their escape routes and navigate their way to safety, quickly and efficiently.

When correctly installed, JALITE AAA self adhesive tapes meet a key requirement of The Fire Precautions (Workplace) Regulations (as amended) 1999 and The Health & Safety (Safety Signs and Signals) Regulations 1996.

JALITE AAA Vinyl Tape for Escape Route Illumination

Suggested application uses:

- VT0502 - Ideal for the illumination of emergency access and escape mechanisms, door handles, light switches & plugs.
- VT1002 - For the illumination of the above within large premises.
- VT0504 - Sufficient length for escape route illumination of a single door.
- VT1004 - Ideal if more than one door requires illumination.
- VT0508 - For highlighting ramps and small enclosed areas.
- VT1008 - Cost effective for general escape route path illumination.

| Product code | Roll size | Product code | Roll size |
|--------------|-----------|--------------|-----------|
| VT0502 | 2cm x 5m | VT1002 | 2cm x 10m |
| VT0504 | 4cm x 5m | VT1004 | 4cm x 10m |
| VT0508 | 8cm x 5m | VT1008 | 8cm x 10m |

How to order a JALITE AAA Self Adhesive Tape

Ordering is simple;

1. Determine which size of tape is required, and quote the unique product code.
i.e: VT0504
VT1008
2. Enter the quantity required for each tape size.
i.e: VT0504 x 1
VT1008 x 3

JALITE AAA Safety Way Guidance Tape for Escape Routes

Suggested application uses:

- AT0504 - Ideal for safety way guidance illumination within small enclosed areas.
- AT1004 - Sufficient length for safety way guidance illumination within corridors no wider than 2m, and open stairwells.
- AT0508 - Sufficient length for short corridors wider than 2m, and single level enclosed stairwells.
- AT1008 - For corridors wider than 2m, large open areas and enclosed multi-level staircases.

The safety way guidance decals are supplied separately to the tape, so that they can be affixed at the most pertinent places along the escape route system.

| Product code | Roll size | Product code | Roll size |
|--------------|-----------|--------------|-----------|
| AT0504 | 4cm x 5m | AT1004 | 4cm x 10m |
| AT0508 | 8cm x 5m | AT1008 | 8cm x 10m |

Photoluminescent Self Adhesive Tapes

JALITE AAA Warning Tape for Obstacles & Dangerous Locations

Suggested application uses:

- WT0504 - Ideal for highlighting small fixtures, switch boxes, electricity and high voltage cupboards.
- WT1004 - For highlighting edges on furniture, small machinery, small industrial vehicles and uneven floor levels.
- WT0508 - Ideal for highlighting buttresses, large machinery, large industrial vehicles and restricted areas.
- WT1008 - Ideal for marking traffic routes for pedestrians within industrial environments.

| Product code | Roll size | Product code | Roll size |
|--------------|-----------|--------------|-----------|
| WT0504 | 4cm x 5m | WT1004 | 4cm x 10m |
| WT0508 | 8cm x 5m | WT1008 | 8cm x 10m |

JALITE AAA Shine & Glow Tape for Fire Equipment Location

Suggested application uses:

- SG0504 - Sufficient length for highlighting a fire hose recess/box or a portable fire extinguisher stand or fire hydrant.
- SG1004 - Ideal if highlighting more than one piece of fire equipment.
- SG0508 - For highlighting small fire point areas.
- SG1008 - For highlighting large fire point areas.

| Product code | Roll size | Product code | Roll size |
|--------------|-----------|--------------|-----------|
| SG0504 | 4cm x 5m | SG1004 | 4cm x 10m |
| SG0508 | 8cm x 5m | SG1008 | 8cm x 10m |

JALITE AAA Go-Tape for Emergency Equipment Location

Suggested application uses:

- GT0504 - Sufficient length for highlighting both sides of a free standing emergency eye wash station.
- GT1004 - For highlighting free standing emergency equipment, portable emergency equipment and first aid cupboards/boxes.
- GT0508 - Ideal for highlighting small, first aid station areas containing emergency equipment.
- GT1008 - Ideal for highlighting safe areas within premises for disabled occupants.

| Product code | Roll size | Product code | Roll size |
|--------------|-----------|--------------|-----------|
| GT0504 | 4cm x 5m | GT1004 | 4cm x 10m |
| GT0508 | 8cm x 5m | GT1008 | 8cm x 10m |
