

HM 16-80 Rotary Iron with Steam

The perfect linen processing tool for small business

For a crisp professional finish to linens when throughput matters, the Miele Professional HM 16-80 rotary iron offers the perfect solution. This easy-to-use pressing tool has a wide roller that allows you to press everything from shirts and pants to bed linens and tablecloths, all with an elegant, professional finish.

An electronically controlled roller provides speeds that can adjust to suit the type of laundry being pressed. This iron also offers steam heat and can be conveniently operated through the use of a foot pedal, allowing you to sit while you iron. In addition, the iron has maneuverable rollers for quick and effortless transportation, and folds away neatly for easy storage. Perfect for B&B's, small inns or restaurants/cafés.
