## GE Monogram® 36" Custom Hood Insert

### Custom Insert Liner

The custom canopy must be sized to fit the insert sleeve. Construct the canopy with an opening that is:  
 26"W x 13-3/16"D  
 The opening must be constructed of 3/4" thick material to allow the sleeve locking clips to engage.

### The Supplied Liner

A stainless steel liner is shipped with each hood insert. This non-combustible liner protects the underside of the canopy.

### Custom Liner

If you are not using the supplied liner, you may construct a custom non-combustible liner. Use the supplied liner as a template. The opening must be 26"W x 13-3/16"D. 3/4" thick material must surround the opening to allow the sleeve locking clips to engage. The insert sleeve inside the cabinet should be positioned 1/2" from the rear wall so that the center of the 8" duct is 5-1/2" from the rear wall.

For answers to your Monogram®, GE Profile™ or GE® appliance questions, visit our website at [geappliances.com](http://geappliances.com) or call GE Answer Center® service, 800.626.2000.

### Dimensions and Specifications (in inches)

#### Outside Dimensions

#### The Insert Sleeve

The bottom edge of the insert sleeve has a 7/8" wide flange on the sides and a 1/2" wide flange on the front and back.

### Remote Location for the Control

The control may be removed from the hood and installed into a wall or countertop. A 30-ft length of wire is supplied to accommodate most installations. A blanking plate covers the opening when the controls are removed. The overall size of the control is 4-1/4" wide and 2-1/4" deep.

We recommend that the cutout in granite or other hard surfaces be made before the countertop is installed.

## GE Monogram® 36" Custom Hood Insert

### Features and Benefits

- Patented Installation Process - Makes the insert ideally suited to a wide variety of custom hood applications; with easy and secure connection to the ventilation duct
- Single-Blower Ventilation with 640 CFM - Provides the power necessary to capture smoke and oily fumes produced by high-performance cooking equipment
- Control with ADA Compliant Remote-Mount Option - Can be removed and relocated to a more convenient location, such as a wall or countertop
- Blower, Liner and Filters Included - No additional components or accessory kits required
- Two Halogen Lights - Provide four levels of illumination over the cooking surface
- Two Stainless Steel Mesh Filters - Trap airborne grease particles and can easily be removed for dishwasher-safe cleaning
- Model ZVC36LSS – 36" Wide Stainless Steel Hood Insert
