# Assembly Instructions

## HEAVEN CHANDELIER

Item 74-C-8

### Parts Included:

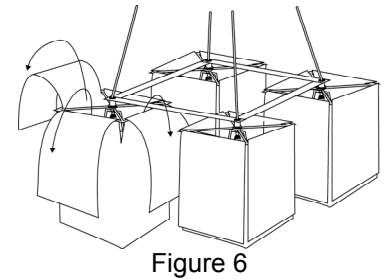

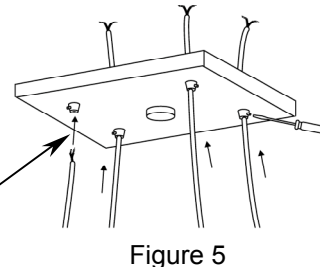

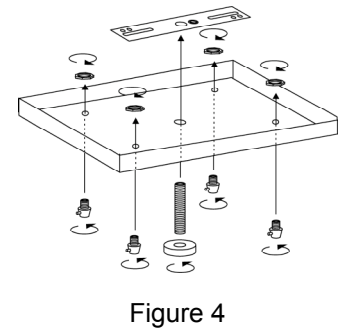

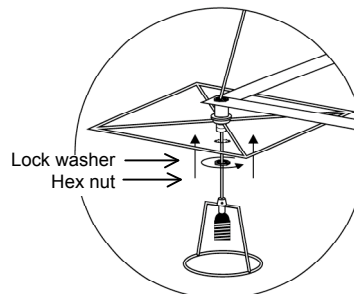

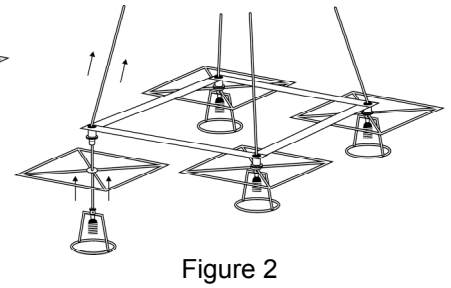

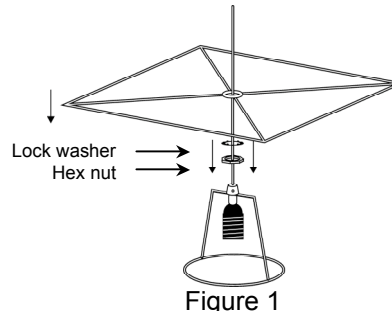

### Assembly:

**WARNING: RISK OF FIRE AND ELECTRIC SHOCK. THIS PRODUCT IS TO BE INSTALLED BY A QUALIFIED ELECTRICIAN ONLY.**

These instructions describe how to assemble the chandelier. Please see separate chandelier instructions for final electrical connections to the ceiling junction box.

- (figure 1)** Take one socket frame and slide a hex nut, lock washer, and shade frame down onto the cord so that they hang loosely on top of each other. Repeat this process for all four bulb frames.
- (figure 2)** Pass each of the cords of the socket frames up through a corner hole of the chandelier frame.
- (figure 3)** Use the hex nut from below to secure the shade frame to the chandelier assembly.
- (figure 4)** Install the 4 cord grips into the outer holes of the ceiling canopy. Secure the cord grips on top with the 4 hex nuts. Screw the finial onto the bottom of the nipple. Slide the nipple up through the center of the ceiling canopy and screw it into the center hole of the bracket bar.
- (figure 5)** Insert the cords of each of the 4 socket frames through the cord grips. Adjust the cord to the desired length and then use a small screwdriver to tighten the set screws in the side of the cord grips to secure the cords. **MAKE SURE THE CORD DOES NOT SLIP THROUGH THE CORD GRIP AFTER THE SET SCREW HAS BEEN TIGHTENED DOWN.**
- (figure 6)** To attach a shade to the shade frame, slide the four flaps of the shade up through inside of the shade frame. Drape the four flaps over the top of the shade frame. Repeat this process for each of the shade frames.
- Turn on, and enjoy!

**!!IMPORTANT!!**  
*Tighten set screw to secure cord*

**You may use a maximum 100-watt bulb in each socket.**

### SAFETY INFORMATION

#### SAFETY

We have designed your lamp to meet the highest UL and CUL safety standards.

**WARNING: RISK OF FIRE AND ELECTRIC SHOCK. THIS PRODUCT IS TO BE INSTALLED ONLY BY A QUALIFIED ELECTRICIAN.**

#### CARE

**Fabric shade . . .**

This Shade is made from crane silk and may be ironed with a cool iron and washed in cold water and allowed to air dry, or it may be dry cleaned.
