PRODUCT DESCRIPTION

The Sig table lamp consists of alternating bands of painted metal and a matte frosted polycarbonate. One version comes in brushed nickel finish and the other comes in sunrise colors; metal bands of red, orange and yellow with the yellow on the top. The bulb is located at the base of the lamp and a spot bulb in the base creates the best effect in this lamp, lighting the ceiling above like a torchiere. A Hi/Lo dimmer switch is located on the cord.
