

Assembly Instructions

SQUARE TABLE

Item 07

Designed By Adam Pollock
& Ben Goldstone

Parts Included: (pictures not to scale)

Assembly:

1. UNPLUG LAMP
2. Install bulb into lamp base.
3. **(figure 1)** Attach the bulb clip over the bulb until it grips the bulb tightly.
4. **(figure 1 - 2)** Place the shade over the threaded post of the bulb clip and secure by screwing the finial on to the threaded post.
5. Feel free to manipulate, bend, squeeze the shade to a desired shape.
6. Turn on, and enjoy! We recommend a clear bulb.

You may use a maximum 100-watt type-A bulb.

SAFETY INFORMATION

SAFETY

We have designed your lamp to meet the highest **UL** and **CUL** safety standards.

This portable lamp has a polarized plug (one blade is wider than the other) as a feature to reduce electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.

CARE

Mesh shade . . .

Metal mesh will naturally change over time developing a richer, deeper color. The acids and oils from your hands quicken this process. For this reason, it is important to clean your hands with soap and water, drying thoroughly, before handling your shade. Rubbing alcohol (70% isopropyl) applied with a soft nylon brush may help for spot cleaning. Wipe and dry with a clean cloth, or spots may appear from the mesh being damp. (Do not use household copper or brass cleaners, as they will permanently stain the shade.)
