- 1-white plastic ring
- 1-Bulb

Sconce parts

Table lamp parts

### Assembly:

1. Read all directions first. Be careful not to stress or strike the glass shade.
2. Mount the sconce back plate on a wall per enclosed instructions or place table lamp on a solid table.
3. **POD: (Figure 1)** Place tube and plastic ring inside the shade from the open end with the black plastic insert toward the smaller hole.
4. Place the small side of the white plastic ring inside the metal end of the tube and hold them together with one hand.
5. **(Figure 2)** Hold the shade with the other hand and center the black end of the tube against the inside of the small hole of the shade.
6. **(Figure 3)** Using one hand on the shade and holding the tube/ring assembly with the other, place the shade/tube/ring assembly over the socket and seat the shade against the plate on the socket stem. When assembling a sconce with the shade facing up, be sure to work with the sconce below eye level.
7. **(Figure 4)** Screw the white plastic ring onto the socket and tighten gently.
8. **TWIST:** Insert the small side of the white plastic ring into the metal end of the tube. **(Figure 5)** Seat the shade against the mounting plate and hold it with one hand. Slide the tube/ring assembly over the socket and stem and center it over the hole in the base of the shade. **(Figure 6)** Screw the white plastic ring onto the socket to hold parts in place and tighten it gently.
9. Insert the enclosed bulb, turn on the power and enjoy your light.

**BULB:** Candelabra base type G 120v 60W bath and vanity

#### IMPORTANT SAFETY INFORMATION

##### If your lamp has a plug:

This portable lamp has a polarized plug (one blade is wider than the other) as a feature to reduce electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.

##### If your lamp does not have a plug:

**WARNING:** RISK OF FIRE AND ELECTRIC SHOCK. THIS PRODUCT IS TO BE INSTALLED ONLY BY A QUALIFIED ELECTRICIAN.
