# ONE COLLECTION

Sophisticated modern, the One™ Collection by Kallista infuses minimalist design with the elements of character. Designed for individuals who appreciate the efficiency and simplicity in design, each piece of the One Collection articulates an inviting, sleek elegance.

ONE

The One™ Collection blends precision with thoughtfully proportioned components. With a seamless spout and either cross or lever handles, this deck-mount basin set marries clean lines and soft angles. Featuring state-of-the-art ceramic valve technology, the One basin set delivers ease of installation with slip-fit connections that resist mineral buildup for dependable, lasting beauty. These designs offer a fresh interpretation of modern – welcoming and gracious.

Looking to the inherent strength and grace of natural forms for design inspiration, each individual piece draws the eye into a perfectly balanced, restful space.

ONE

The One™ Collection combines refined aesthetics with the exceptional performance of KOHLER® valves. From the Raindome with its soothing downpour to the showerhead with its invigorating spray, smooth surfaces and fundamental forms echo the elemental nature of water. A selection of handshowers – wand, single-function and multifunction – allows you to further customize your shower experience.

ONE

Created to live together, the One™ Collection includes accessories with the same design lines that distinguish the entire offering. With an array of towel bar sizes, robe hooks with notched or disc designs, and a toilet tissue holder, these accessories personalize the bath or powder room while increasing its functionality.

ONE

The One™ kitchen pot filler personifies succinct efficiency and quality. Designed with patented hinge technology for a uniquely streamlined profile and exceptional strength, the pot filler swings gracefully and effortlessly. Its 22-inch spout reach retracts fully when not in use to rest nearly flush against the wall. Enhancing safety and ease of operation, two valves allow water to be controlled at the most convenient site. Above all, the One pot filler is simply beautiful.
