Dishwasher cut-out combinations

When under-counter height of 31 7/8" to 33 7/16"
always plan a Euro tub dishwasher, regardless of the toe kick height.

When under-counter height of 34 5/8" to 36 1/4"
always plan a tall tub dishwasher, regardless of the toe kick height.

When under-counter height of 33 7/8" to 34 1/4"
please note: whether to plan a Euro tub or tall tub dishwasher depends on the toe kick height.

See table below.

Example with 34 1/4" cut-out height:

When toe kick height is between 6 11/16" and 8 11/16" always plan a Euro tub dishwasher (DF 260).

When toe kick height of 3 15/16" to 5 7/8", always plan a tall tub dishwasher (DF 261, DF 251).

When toe kick height is between 5 7/8" to 6 11/16", both heights of the dishwasher can be planned alternatively.
