Malibu Recliner

Malibu recliner provides comfortable, full-body support to user. It complements the Malibu seating product line.

Back features a three-position, wall-saver reclining mechanism. It is upholstered.

Arms are upholstered. Maple arm caps are available.

Legs or casters may be selected. Legs are constructed with hardwood maple and come standard with nylon glides. Casters offer ease in mobility. The front casters are locking and the back casters are non-locking.

Seat has a removable, upholstered cover.

Product Details

Flip-up side table is optional. It can be specified on the left or right side facing. Flip-up table is 10" x 15".

Clearance between the wall and chair back is 3 1/2". This will allow the chair to fully recline without bumping the wall.

Different fabrics can be specified on the seat and back. Fabric on the back will match the fabric on the arm panel and footrest. Contrasting fabrics to be upholstered different from the standard must be processed through Specials.

Moisture barrier on the seat is available as an option.

Surface Materials

All Nurture seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117.

Mineral Recliners

Mineral recliner

seating is designed to provide big chair comfort in a compact size.

Headrest provides continuous support in the seated position and various reclined postures.

Seat cushion and back are upholstered. Elastic web straps, which are connected to the steel frame, provide additional seat and back support.

Arms panels are enclosed and upholstered. Maple wood arm caps have a beveled front grip to help when exiting the chair.

Frame is constructed of welded steel for long-term durability.

Four casters are standard and each feature a total lock system to lock both wheel and swivel with easy action.

Fold-down arm assists with patient transfer to another seat surface.

Footrest is scalloped to help prevent feet from slipping off the ends in the raised position and help facilitate exiting the chair in the closed position.

Actual Dimensions

Features	Overall Depth	Width	Height	Seat Dept	Width	Height	Arm Height	Fully Reclined Depth
Reclining chair	30"	29½"	46"	18½"	23½"	20½"	26"	69"

Product Details

Back recline mechanism facilitates a full flat recline, and entry and exit from the chair is more ergonomically friendly than traditional recliners.

Tablet arm is 11" x 20" and swivels 270 degrees. It can be mounted on the left or right side (shown) of fixed arm models. If left mount is specified, the recline levers will be positioned on the right side of the unit when facing the front of the chair.

Heat and massage option is UL approved. Both functions feature three settings to allow user to adjust to meet personal preference. User control located inside the arm panel.

Fold-down arm assists with patient transfer to another seat surface. The arm self-locks when lifted into the upright position.

Flip-down release tab is located at the back of the arm for easy access and operation.

Push bar attaches to the back to assist in maneuverability and transporting.

Pull out footrest easily slides out to support a patient's feet while sitting or during transport.

IV pole holder is positioned on the back of the arm panel and accommodates 1/2" to 3/4" diameter IV poles. It can be mounted on the left or right side.

Drainage bag hanger accommodates foley bags and other drainage bags and closes flat when not in use. It is best specified on the arm opposite the recline levers but can be mounted on the left or right side. On flip-down arm models, it will be positioned on the opposite arm of the flip-down (controls side).

Different fabrics can be specified on the seat and back. Fabric on the back will match the fabric on the arm panel and footrest. Contrasting fabrics to be upholstered different from the standard must be processed through Specials.

Moisture barrier is available as an option on the seat only.

Surface Materials

All Nurture seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117.

Orchid Recliner

Orchid recliner seating

has ergonomic contours that are created by a continuous suspension system resulting in a much softer, resilient seating surface that eliminates pressure points by providing an increased surface area in contact with the occupant's body.

Seat cushion and back

are upholstered and incorporate a contour membrane suspension technology to provide adaptive support to various body types.

Arm side panels

are enclosed and upholstered. Upholstered arm caps are standard. Maple wood arm caps are available as an option.

Frame is wood and welded steel providing increased durability and longevity.

Legs are available with glides or casters.

One-piece cushion allows for cleaning ease.

Headrest is an adjustable upholstered pillow which provides long term comfort.

Reclining mechanism is shifted inboard and shielded for increased safety.

Legs are solid maple.

Integrated foot rest eliminates pinch points associated with segmented leg rests.

Different fabrics can be specified on the seat and back. Fabric on the back will match the fabric on the arm panel. Contrasting fabrics to be upholstered different from the standard must be processed through Specials.

Headrest will match the back unless contrasting headrest is specified.

Moisture barrier is available as an option on the seat only.

Surface Materials

All Nurture seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117.

Product Details

Orchid has three unique positions: the upright position provides comfort. The mid recline position elevates the legs while reclining the back, redistributing body weight across the legs and upper torso to provide higher comfort level. The full recline position further elevates the occupants legs while increasing the back recline angle, to provide a perfect place to snooze.

Sieste Recliners

Sieste recliners are available in three models: Trendelenburg, Wallsaver, and Three-Position. They complement Sieste chairs and sleepers.

Back is closed and upholstered.

Seat is upholstered. A zipper closure allows the cover to be field replaceable.

Legs are constructed with maple hardwood solids. Exception: Trendelenburg recliner is standard with casters, however, wood legs are optional. Legs vary based on recliner specified.

Arms are enclosed and upholstered. Arms are standard without arm caps. Optional wood and plastisol arm caps are available.

Nylon glides are standard on legs or base.

Product Details

Trendelenburg recliner has caregiver-controlled foot levers on both sides of the chair to engage the trendelenburg position. It is standard with a transport push handle and casters. The front casters lock.

Wallsaver recliner has a release lever, located on the side, that activates the reclining mechanism. It is standard with a wood base. Wall-saver casters are optional.

Three-Position recliner features a weight-activated reclining mechanism. It is standard with wood legs, however optional casters are available. Transport package is optional that includes a push handle, transport grade front casters that swivel and lock, and transport grade back casters that brake.

Actual Dimensions

	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height	Fully Reclined Depth
Three-Position recliner	34"	29½"	41½"	22"	23"	19½"	24¾"	66"

2772 Medium Mahogany on Walnut **E**

Turnstone Laminate Collection

A selection of laminates and edge bands in this collection are available on Steelcase brand products. This collection is available with standard leadtimes and supported like standard laminates to help make ordering easy. Please see the Turnstone section of in2.steelcase.com for swatching information.

2535 Virginia Walnut
2536 Blackwood
2612 Marbled Maple
2614 Chocolate Walnut
2615 Marbled Cherry

Open Line Laminate (OLL)

Open Line laminates are available at an additional \$64 (U.S.) per surface, plus the cost of the laminate.

Example:

4' x 8' sheet = 32 square feet
32 square feet x \$1.10 = \$35.20 (U.S.) per sheet
Laminate costs vary by supplier. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

Applies to:

- Exchange tables
- Folio Laminate worksurfaces
- Opus
- Sonata
- Jenny
- Sync

This service allows you to order non-standard laminate at an additional fee per unit. See the specification pages for upcharge information.

When processing orders for Open Line Laminate on Opus or Sonata, specify 2902 in the laminate finish field and enter the OLL manufacturer information.

Edge bands must also be specified and will incur an \$83 upcharge.

6131 White
6132 Grey
6133 Folkstone
6134 Northsea
6135 Shadow
6136 Nubian Brown
6137 Black

When processing orders for Open Line Laminate on Jenny, Exchange tables, Folio Laminate Worksurfaces, and Sync, specify 2900 in the laminate finish field and enter the OLL manufacturer information.

Edge bands must also be specified using the plastic edge band offering.

 UL83 Lily Pad
 UL85 Ebony
 UL86 Camel
 UL87 Cocoa
 UL88 Aquamarine

Upholstery

- See page 706 for a complete listing of upholstery colors and numbers

California 133 Option

Nurture offers Fire Code Seating Modifications (FCS) on nearly all seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as hospitals, theaters, meeting rooms, and lobbies. The FCS standards will meet both the State of California Home Furnishings Technical Bulletin 133 (CAL TB 133) and Boston Fire Code (BFC). Boston adopted the California Home Furnishing Technical Bulletin CAL TB 133 test standard in 1992.

CAL 133 is specified using an "F" suffix. When an "F" suffix is available, it means that these models have been tested and certified using approved fabrics. A complete list of approved fabrics are listed on the COM website at www.Steelcase.com

If a specific chair/fabric combination has not been tested, an actual burn test can be performed on the product in the specified fabric. The cost of the test is \$700 (net). Please allow a minimum of six weeks for the production of the chair and the completion of the test.

Upholstery

► See page 706 for a complete listing of upholstery colors and numbers.

► Check the COM database for specific product and fabric approvals.

Steelcase Wood Seating Surface Materials

This listing includes all the surface material choices that are available for the Steelcase Wood Seating products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

Surface Materials

Binders include:

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Metal

4798 Sterling Metallic
7026 Nickel
7207 Black
8046 Polished Aluminum
9201 Polished Chrome

Paint

0835 Black
4799 Platinum Metallic
7207 Black

Wood

► See *Color Availability Matrix for Wood Seating in Surface Materials Reference Manual* for color availability by product line.

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain.

3062 Graphite Walnut
3402 Clear Cherry (Aged)
3412 Natural Cherry **E**
3422 Medium Cherry
3522 Clear Maple*
3572 Amber on Maple
3592 Blonde on Maple
3602 Desert Oak
3612 Warm Oak
3692 Espresso Oak
3702 Clear Walnut
3712 Natural Walnut
3722 Dark Mahogany on Walnut
3752 Medium Walnut
3762 Dark Walnut
3772 Medium Mahogany on Walnut

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370.*

Customiz stain is a service that allows you to create your own stain color. Minimum order quantities, per unit up-charges, and a one-time customer processing fee apply.

► See the *Surface Materials Reference Manual* for more information.

Upholstery

► See page 706 for a complete listing of upholstery colors and numbers.

► Check the COM database for specific product and fabric approvals.

E = Established

► For Surface Materials matrices for all Turnstone product lines, see *Surface Materials Reference Manual*.

Fabric Approval and Yardage

To confirm whether a particular COM material has already been tested for use on a specific Steelcase or Nurture product or to determine actual yardage requirements:

- Visit www.steelcase.com

For additional information regarding Customer's Own Material, call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

For Nurture products, call 1.800.342.8562.

Nurture Graded-In Programs

Nurture Graded-In Program: Acrylic Panel

A collection of acrylic panels are available as part of a Graded-In Program. The collection is from the Designtex Fusion offering.

These acrylic panels are Graded-In for the Sonata product only. The collection on these pages is not Graded-In for other Steel-case brands or product lines.

To order these acrylic panels, enter the finish code which corresponds with the acrylic panel price group.

Fabric Application Direction Guidelines

What is the issue?

Some textiles are simple and look the same regardless of how you apply them to a product. Other fabrics are patterned, textured, or have luster that will have a distinctly different appearance applied in a different direction on a chair. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Nurture products, it is important to understand fabric application direction when ordering a product to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long yarns that run down the length of the roll are called the “warp” yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a chair. Fabric directionality is determined by how the fabric comes off the roll.

Warp Horizontal
(Railroaded)

Warp Vertical
(Woven Way)

It is NOT determined by the way the pattern looks on the product. For example, the image below shows the fabric applied warped horizontal although the stripes appear vertical.

Terminology

Steelcase uses the terms warped horizontal and warped vertical. There are other terms within the industry that are used that have the same meaning:

- Warped horizontal is also referred to as:
 - railroaded or across roll
- Warped vertical is also referred to as:
 - woven way, down roll, or top out

Why is it important?

Dealers must specify fabric application direction when ordering COMs and Nurture Graded-In fabrics. We require the dealer to specify the direction because we do not know which way customers want to see a pattern on the furniture. Therefore, it is critical to know how the pattern is run on the roll to ensure that Nurture builds and ships each order to the customer's expectation each and every time.

Incorrect?

Correct?

Incorrect?

Correct?

Incorrect?

Correct?

Incorrect?

Correct?

How do I know which way the fabric comes off the roll?

Most textile companies will swatch their fabrics in a warp vertical (woven way, down roll) direction. Some exceptions might be made to address patterns especially with stripes. Typically, when a fabric is swatched in a warp horizontal (railroad or across roll) direction, the direction is noted on the swatch card or fabric sample. If in doubt of a fabric direction, we encourage you to contact the textile vendor for clarification.

Vinyl

Vinyl generally only passes on Nurture product in a horizontal or across roll direction. This is due to physical properties of the material. If a vinyl is applied in the opposite direction, too much stretch in the material can compromise the overall aesthetics of the final upholstery. If a patterned vinyl is being specified and the vinyl must be run in a vertical direction, pre-approval must be arranged through Nurture. Nurture will consider the request and a decision will be made based on the specific vinyl and product combination. Contact Nurture's Customer Care line.

Required Action Steps before Specifying

1. Verify by using Steelcase's COM website that the fabric is approved on the product.
2. Verify the direction that the fabric can be applied. Occasionally a fabric is only approved in one direction.
3. Confirm with the customer how they want the fabric to look on the furniture.
4. Confirm using the swatch card or vendor's website the direction the sample is shown.
5. Now you're ready to place the order.
