

FOCAL POINT®

infinite™

flush with trimless flange

regress with trimless flange

Meet Infinite™...the new 3" recessed fluorescent luminaire from Focal Point® that takes the concept of narrow

regress with trim flange

flush with trim flange

streams of light

A continuous stream of light slicing through the ceiling. Makes them wonder...how did they do that? Infinite's staggered T5 lamp placement and Flex-Roll™ shielding are the answers. Flex-Roll™ is a continuous flexible acrylic lens supplied to match the luminaire's overall length.

No breaks, no seams, virtually no socket shadows...just uninterrupted glow.

... slot to infinite lengths. Engineered with both the designer and client in mind, Infinite™ features staggered lamping with

th Flex-Roll™, the one-piece continuous lens, delivering the clean seamless look your design demands. Flangeless cap

trimless installation made easy

attach drywall to luminaire

install trimless flange to housing

tape, mud and finish ceiling

ability further enhances Infinite's™ pure line of light. Infinite™ — limited in length only by your imagination.
