MANAGEMENT
THESE TABLES TAKE CENTRE STAGE
STRAIGHT AWAY EVEN IN EXECUTIVE
ENVIRONMENTS.

Stages in the success story: In 1986 architects Günter Behnisch and Hubert Eilers designed and developed with VS an individual table with a characteristic freeform surface. In 1988 this B&P table was awarded a prize at the Orgatec trade fair in Cologne and then expanded into an extensive office-furniture system - the Series 900.

SUCCESS STORY In 2001 (after a choice had been made by four participating teams of architects) all the administrative work areas in the German Bundestag (in the Jakob-Kaiser and Paul-Löbe buildings) were equipped with Series 900 tables.
