

## 960 Tech Chair Standard Features

The *960 Tech Chair* comes standard with the following features:

- *Lateral Shaped Back* follows the body's contours to support the entire back rather than just the center back area.
- *Height Adjustable Back* adjusts to any height user.
- *Height and Width Adjustable Arms* to relieve shoulder stress and provide support for any size user.
- *Adjustable Seat Height* adjusts quickly to suit any size user or desk height.
- *Synchro-Tilt Control Mechanism* for synchronized movement in the back and seat, and years of reliable comfort.
- *Knee Tilt* allows you to recline without lifting your feet off the floor.
- *Tilt Tension Control* allows user to adjust the tension to suit their weight and size.
- *Tilt Lock Functions* allow the user to freely rock backward and forward, or lock the chair into position of choice.
- *Lumbar Support* shaped into the back for optimal positioning.
- *Five star base with fiberglass reinforcement* for strength and stability.
- *55mm Dual Wheel Hooded Soft Wheel or Hard Wheel Casters* for smooth operation in any application.
- *Waterfall Seat* to reduce pressure and improve circulation.
- *High resilience foam* that meets Cal 117 fire standards.
- *Durable upholstery options.*
