Water, oil, grease, etc. create slippery conditions. Floor applications with exposure to these conditions require extra caution in product selection and proper maintenance. C.O.F. is less than 0.50, check local building codes prior to selection and installation. For additional application information refer to: "Factors to Consider" at www.daltile.com/ResidentialFactors. Not for use on ramps.

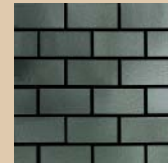

Maintenance: Routine maintenance will keep your tile looking new for years to come. To clean, use a liquid non-abrasive household cleaner. DO NOT use scouring pads, steel wool, sandpaper or other abrasive products. Avoid cleaners containing ammonia, bleach or abrasives. Always test in a small inconspicuous area when using a new cleaner to ensure compatibility.
