Chemical Resistance	C650	Resistant
Coefficient of Friction	C1028	Wet: ≥0.60 Dry: ≥0.68
Abrasion Resistance	ISO 10545-7	4

Abrasion Resistance Application Classifications ISO 10545-7:

- 1 Light Residential 2 Heavy Residential
3 Light Commercial 4 Heavy Commercial

Water, oil, grease, etc. create slippery conditions. Floor applications with exposure to these conditions require extra caution in product selection. For additional application information refer to "Factors to Consider" at www.daltile.com/ResidentialFactors. Application requirements vary for decorative tile. Not for use on ramps.

Maintenance: Routine maintenance will keep your tile looking new for years to come. Under normal situations, the tile can be cleaned using clear water with a neutral tile cleaner. Always follow-up with a rinse of clear water. No waxes or sealers are recommended for this product.

Canaletto™ Glazed Porcelain Tile

In 1723, the Venetian painter Canaletto painted dramatic, topographic and picturesque views of Venice, marked by strong contrasts of light and shade. Today, Canaletto glazed porcelain shares a similar artistry with its namesake. A perfect interpretation of tumbled natural antique travertine, this tile captures the beauty of stone with its random coloration. Its unique variation in veining and color also means no two tiles are exactly alike. A distinctive "clipped" corner is one of the defining elements of this tile, which can be complemented with coordinating glass, tumbled stone, metal and granite.

Design Tip:
Adding decorative accent tiles makes a one of a kind fashion statement for your floors, walls and backsplashes.
