Canterbury Cases

Providing an appropriate place for everything was an important tenet in Shaker philosophy. Rooms were uncluttered and spare, belongings hung up or put away. With this idea in mind, we've crafted a new series of basic, stackable storage pieces. Different-sized drawers house a wide array of goods. Solid cherry construction, dovetailed drawer corners and mortise-and-tenon joints promise more than a lifetime of use. The bottom case can be raised off the floor with a bracket base.
