AC-DTR60 · 30"H x 60" Diameter

Crafted to work well with the low-back profile of our Edo dining chairs, this round version of the Edo Dining Table offers a more casual seating option. A solid, grain-matched cherry top is supported by a distinctive V-base of eight reverse-tapered legs splayed out from a grounded plank base. This design creates vertical visual space between the legs, lending the table a kind of graphic ease when it stands alone, and balancing out the rectilinear lines of the chairs when they are pulled close. Available in three standard sizes, custom sizes available upon request.
