Inverted Arm Chair

IAC · 34"H x 24"W x 23"D

The Inverted Armchair is adapted from our own signature piece, the Continuous Armchair. The compact lines of the Inverted Armchair are more akin to those of master furniture-maker George Nakashima, who used his unique talents to reinterpret early American design with a Japanese sensibility. We used the same labor-intensive process to create this chair's elegantly sloped back, but flipped the arm for maximum comfort and versatility. We also scaled down the size to create a chair that is consummately comfortable, less Colonial, and altogether different in its modern silhouette.
