kinesis ottoman DM-SO · 18"H x 25"W x 25"D

Our experience in sculpting the Wing Chair and Aria Collection led us to create this form, an exciting and new chapter in our design journey. The signature arms of the Kinesis Chair are milled from three matched pieces of solid wood. The edges are polished until they pour in a seemingly continuous curve that echoes throughout the entire frame and base of this remarkable piece. A compound, complex curve anchors the frame and the cupped seat, a shape repeated again in the ottoman. In a celebration of complementary materials, a star-shaped bronze base—cast at a local foundry—provides solid enduring support and grounds the momentum of the piece. Wrapped leather or suede cloth upholstery further accentuates the curvilinear design. Taken as a whole, the Kinesis Chair and Ottoman combine three basic materials that have enriched mankind's evolution from the dawn of civilization: wood, leather, and bronze. Chair and Ottoman are available in cherry or walnut. The cast bronze bases can be finished in one of three patinas.
