6C21-31* Tycoon	6C21-45 Cashmere	6C21-61 Flapper	
	6C21-41 Sax		

Notes:

• "Pattern Width" is the trim width on the specification and represents the width of the wallcovering that will be received by the customer.

• "Gauge" is the product thickness measured after the first pattern colorway is produced.

• "Tensile" and "Tear" results are the minimums required by CCC-W-408A federal specifications.

• "Nominal Pattern Width" is the expected width yield from one drop on the wall.

*These decorative metallic effect wallcoverings should only be cleaned with mild ingredients such as soap, detergent and water. Stronger, more alkaline household cleaners (ex. Lestoil®) have the potential to damage the surface of the wallcovering as does excessive scrubbing.
