

Gabrielle is a natural looking product that was inspired by an actual piece of banana paper, a type of paper used in arts and crafts. The larger slubs or fibers that are found naturally in this paper are recreated in the pattern through the use of print, while the applied texture enhances the paper-like qualities.

\*Gabrielle has the beauty and performance of a vinyl wallcoverings in an alternative substrate.

\*\* Resonance Wallcoverings are softer than traditional vinyl wallcoverings. This provides excellent interpretation of the embossing texture. It is important that care be taken during installation. A steel broad knife should not be used to smooth out the wallcovering. A brush or soft smoothing tool should be used to prevent damage to the surface.
