

Rounds

AD-RO4-D

TYPE _____

FEATURES

The AD RO4 D series is a direct version of the family of 4" round extruded aluminum luminaires. The series is available with a round clear linear lens or a round radial baffle. The series can be suspended, wall mounted and mounted from wall to wall. These luminaires can be mounted individually, in perfectly aligned continuous rows, or in any combination of patterns. The AD RO 4 D provides an excellent solution for highlighting and accenting areas and items of interest.

SPECIFICATIONS

Housing: One piece heavy gauge extruded aluminum 6063T5 alloy welded construction forming a four-inch round diameter profile. Finished end caps are welded with no exposed hardware or knockouts.

Reflector: Die formed 20-gauge cold rolled steel minimum 90% reflectivity finished in high gloss baked white enamel.

Shielding: Standard lens is extruded acrylic with linear ribs (ARL) for efficient light distribution. Optional radial aluminum baffle (RAB) is available.

Electrical: Ballast is electronic, high power factor, thermally protected class P, sound rated A, with less than 20% total harmonic distortion. The minimum number of ballasts will be used unless otherwise specified.

Mounting: Standard installation is an adjustable self-locking aircraft assembly 48" x 3/32" in diameter with 5" canopy. One 1/6 4 SJT straight 54" cord is supplied with each power feed. Standard pendants are available in 24" lengths. See Accessories for additional mounting.

Finish: Fixture housing and steel components are finished in baked white enamel applied over a five-stage pretreatment process.

Lamps: Fixtures are provided for use with one or two 32 watt T8 lamp or 54 watt T5 HO lamp. (Supplied by Others)

Certification: Luminaires are U. L. Listed, C. S. A. certified and are Union Made in the United States of America I.B.E.W.
