

Frequently Asked Questions

What is Shield fabric? Why does it feel different? Shield is an anti-bacterial and stain resistant fabric for use as privacy and shower curtains, window treatments and bedspreads. Shield combines active anti-bacterial properties with stain resistance for easy maintenance. It incorporates Aegis Microbe Shield resistant technology to support the elimination of micro-organisms. It feels different because it is made from 100% polyester, permanently bonded and multi-coated with Aqueous based microporous polymers

Do I have to purchase a very long curtain for high ceiling scenarios? If a long curtain is not desired, install a suspended track set, which consists of a post (CE83008) and hard ceiling support set (CE8500), as an economical solution.

The stationary shower rod I purchased is too long. How can the piece be altered? Use a hack, circular, or chop saw to cut the piece to the desired length.

Can I get samples of all your fabrics? Samples of most fabrics are available. Contact your InPro sales representative for details.

What are the different lengths of straight cubicle track? Straight track is available in 7', 8', 9', 12' & 16' lengths.

Does InPro include the hardware with cubicle track? No, hardware is not included with track.

Can you get other fabrics that aren't shown in your catalog? Yes, we work with all major textile companies. Contact your InPro sales representative for details.

Do your carriers fit in a competitors track? No, our carriers are only compatible with InPro cubicle track systems.

Do InPro fabrics meet the NFPA 701 code? Yes, all fabrics meet NFPA 701 (exception: Rhino). Contact your InPro sales representative for specifics.

Do you offer radius bends other than the 12" or 54"?
No.

What types of screws are recommended to attach the track to the ceiling grid?
#8 pan head sheet metal screw
