

Award-winning design by Tom Newhouse.
LED energy-efficient illumination.
Sustainability.
Low cost-to-own.
Optimized optical performance.

What more do you want?
Something beautiful?

details®

Kast. Rearranging the way to look at task lighting.

Simply shuffle the letters a bit and you have a nice little anagram: Kast.
One dramatically efficient light in one sleek package. It was no small task.

Complex. Simple.

Here's the complexity: Kast's quarter-shaped array of two 5W LED clusters are precisely angled to deliver glare-free light dispersion. And then there's Kast's beautifully simple aesthetic.

We call it simplicity on the other side of complexity.

But "WOW!" will also do just fine.

The lowdown on "low cost to own."

- 10-watt LED diodes are nearly 25% more energy-efficient than comparable compact fluorescent technology
- Average rated life of 100,000 hours is 10x greater than most compact fluorescent lamps

Substantiating "sustainability."

- Manufactured with over 80% recyclable aluminum & steel
- Composed of 40% recycled material with 27% post-consumer recycled content
- 100% solvent free powder coat finishes

- ① Ergonomic asymmetrical optics package – Two 5-watt light emitting diode clusters
- ② Integral heat convection vent slots
- ③ Asymmetrical light distribution

Obligatory and important basic feature information.

- LED driver: 120V electronic
- LED's: two 5-watt clusters; 3,000 K; 100,000 hour average rated lamp life
- Cord length: 9' cord
- Construction: die cast aluminum
- Certification: U.L.[®] & C.U.L.[®] listed
- Dimensions: W7¹/₁₀ x H16 x D17¹/₂
- Finish: Arctic White, Charcoal, Polished Aluminum

| Style Number | Description |
|--------------|----------------------------------|
| LKASTF | Freestanding (painted) |
| | Freestanding (polished aluminum) |
