Elmo Leather

Coalesse uses leathers that are provided by Elmo of Sweden. Elmosoft is a full grain, aniline dyed, semi-aniline finish. Elmosoft is also offered on some products in pique. With Elmosoft leather, now recyclable and chromium-free, you have the opportunity to bid on green projects when requested. Elmosoft leathers are never corrected, buffed, or altered in any way. Coalesse purchases only original full grain leathers. The quality of this genuine leather can be felt in the hand immediately. Other leathers are often stiff because of the amount of pigment needed to cover the imperfections of an inferior hide. Using leather of a low quality affects the overall quality of the furniture it is upholstered on. You can feel confident in leather purchased from Coalesse.

Elmorustical Leather

Elmorustical is a full top grain, aniline dyed leather. Elmorustical is also offered in pique on some products.

Elmorustical has a grain which varies in structure and offers outstanding comfort. It is an aniline leather with all the distinct features of the natural hide.

Only the finest hides are used for Elmorustical leather. Expect some color variations from hide to hide due to the aniline state of the product. Color fading may occur if leather is exposed to direct or intense light. Care is required to allow this product to achieve the rich natural patine that beautiful leather develops. The hallmarks of this leather include some naturally occurring markings such as healed scars, insect bites, stretch marks, and fat wrinkles. Elmorustical's leather treatment is very natural with little protection from spills or body oils. This rich leather will exhibit stains and oils through normal use. Coalesse is not responsible for discoloration, spotting, or staining on this leather.

Wood

Standard Wood Finishes

Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Contoured products, such as wood side chairs and occasional tables, are finished with post-catalyzed vinyl, which provides similar properties and matches the sheen and color of Clarity. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Samples contact Customer Service at 1.800.627.6770

Steelcase Wood Finishes

Coalesse will match current Steelcase wood finishes at no upcharge. Finish matches are for color only and do not match the Steelcase finish in sheen. Samples will be provided upon request from Customer Service at 1.800.627.6770 and will be produced within 10 working days.

Custom Wood Finish cherry, maple, walnut, or oak

This charge applies to color matches only and does not pertain to changes in finishing technique. Samples submitted for matching must be at least 12" x 12" in surface dimension. Customers must specify cherry, maple, oak, or walnut species. Coalesse will produce a strike-off within 5 working days following acknowledgment of the order. Coalesse will not schedule the order for production until the strike-off has been approved and received by Coalesse.

Standard Laminates (Grade 2)

Any current color within the following laminate groups may be specified in grade 2 — subject to availability. You may contact Customer Service at 1.800.627.6770 to verify that your laminate selection falls within the categories noted below.

Directional patterns and wood-grains may be used on free-standing systems products, but will not be patterned matched.

Some standard laminates, may not be available in the appropriate size to produce large products.

- Nevamar
- Solids (textured finish)
- Patterns (textured finish)

- Wilsonart (Grade 1)
- Standards (matte finish)

- Formica
- Color portfolio (matte finish)
- Patterns (matte finish)
- Formations (matte finish)

- Pionite
- Decorative surfaces (suede finish)

Non-Standard Laminates
Coalesse can supply additional laminates for an upcharge. Contact your Coalesse sales consultant for a custom quotation. Custom upcharges will vary based upon the cost of the material specified and additional labor required to manufacture the products. Some non-standard laminates will not be available in the appropriate size to produce large Coalesse products. A sample of the laminate may be requested for approval. Some non-standard laminates may be subject to extended lead times.

Coalesse does not use the following types of laminate materials on Topo, Detour, and TeamWork:

- Formica solid surfacing – Surell Solids, Surell Granites
- Nevamar – Fountainhead
- Dupont – Corian
- Metal Laminates – textured, brushed or polished

Some metal laminates may be specified for vertical surfaces on the Detour mobile T-screen only on a custom basis. A custom quote must be requested from your sales consultant.

Upcharges will be based upon the exact material specification and quantity of products ordered. A sample of the metal laminate must be submitted for approval, along with the request for approval.

Metal/Paint

Coalesse powder coats all painted metal components for an exceptionally durable, environmentally responsible finish — eliminating VOC's (volatile organic compounds) from being released into the environment. Electrostatically charged powder coat material is applied to an exacting thickness and then temperature baked, resulting in a smooth, flawless finish that is abrasion and impact resistant. The following Coalesse metal finishes are available:

- Powder Coat paint
- 4138 Graphite Gloss
 - 4140 Arctic White Gloss
 - 4141 Platinum Matte
 - 4142 Platinum Gloss
 - 4144 Black Gloss (formerly anthracite gloss)

Cortex

Cortex is a 0.7 mm thick polyester film which is applied through heat and pressure over a MDF (medium density fiberboard) core. The panel is fluted for appearance and durability which minimizes surface scratches. Performance test results are available through Coalesse sales consultants.

Cortex is available in two colors, with a fluted pattern. Color availability is specific to each product line. Gray or silver cortex pattern detail (tX2).

- CTX2 Gray Cortex
- CTX3 Silver Cortex

Seating Upholstery

Coalesse fabrics are priced by grades from 6 through 14 and leathers C and E. Fabrics and leathers may be purchased separately, see page 20.

Some fabrics can be treated for flame retardancy, please contact customer service.

All products are handcrafted, making each unique. Certain fabrics and leathers will appear loose and may differ from like products due to wrinkles when upholstered.

A contrasting welt is available on some products. Consult Customer Service for yardage or square feet requirements for prices.

All stripes will be applied vertically unless customer specifies otherwise. Loose cushions on Coalesse products are not fully upholstered (not reversible).

Coalesse grades in all Designtex, Maharam, and select Luna fabrics, as well as working with a large array of COM and COL choices. The selections listed below represent our favorites when specifying on our products. While these are graded into our price list, not all fabrics listed will work on all products. Please see the upholstery matrix on page 356 for availability by product. For all COM/COL selections, as well as the rest of the Designtex and Maharam graded in offering, please refer to our COM/availability matrix on coalesse.com to determine feasibility on our products.

While we grade in fabrics, please note, we do not stock fabrics and can only respond based on the lead times provided by Designtex, Maharam, and Luna. We will make every effort to work with these suppliers to insure we are meeting our published lead times commitments.
