## conference rooms

Exponents wood casegoods compliment Vecta tables and chairs in meeting and conference rooms. The Exponents portfolio consists of two Credenzas, an AV cabinet, a lectern, a mobile cart, and a presentation board.

EXPONENTS PRESENTATION BOARD [WALNUT VENEER]

✓ Presentation board

✓ Mobile cart

✓ Lectern

✓ Credenza

ABOVE: EXPONENTS [CHERRY VENEER].

## exponents

BELOW: EXPONENTS CREDEZA [WALNUT VENEER] AND MODUS SLED-BASE CHAIRS.

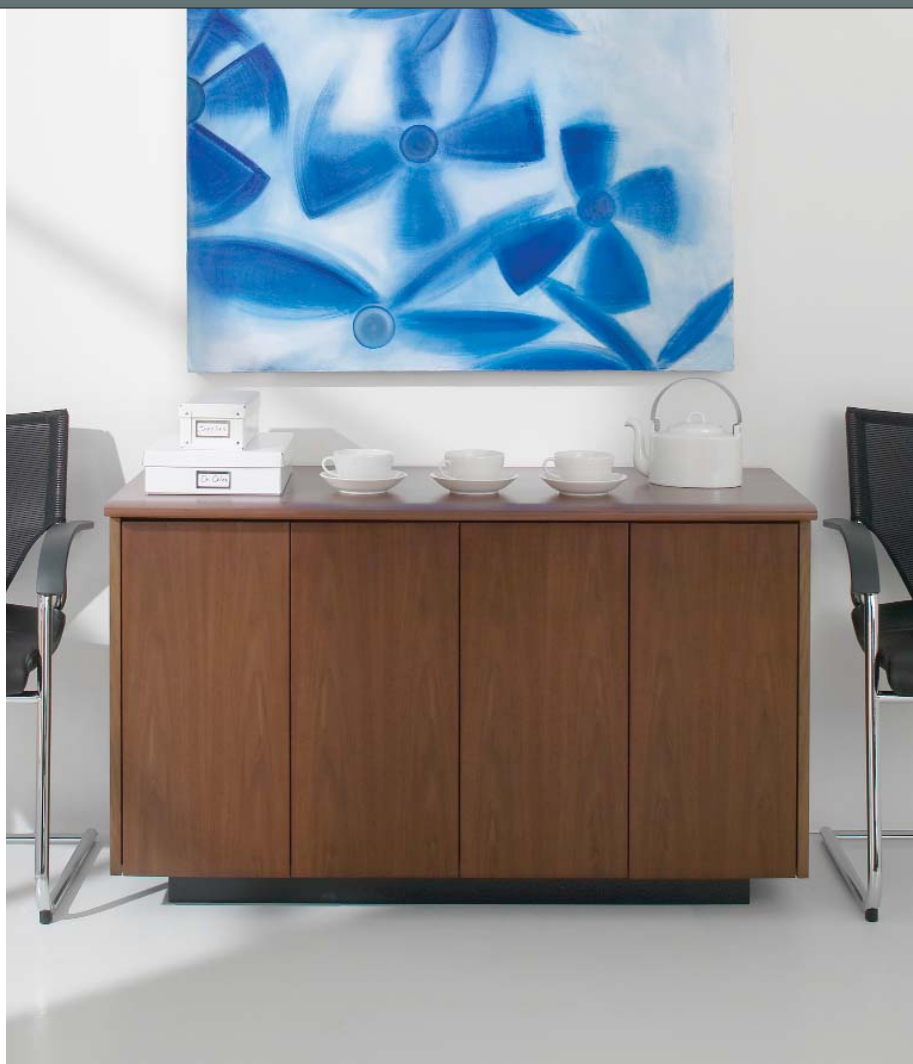

The two credenza units are designed to house electronic components for hi-tech audiovisual spaces. Each unit also has a work surface and divided storage space with adjustable shelves.

The mobile cart can serve as a valet for refreshments, a server for media equipment, or a mobile storage unit for office material.

The lectern has a wide work surface with a paper rail for holding documents, a shelf to keep remote controls, and a bottom cabinet with adjustable storage space.

The AV cabinet houses most TVs up to 36" diagonal, various electronics, and media. Upper cabinet doors recess out of the way into side pockets.

The presentation board opens out to approximately 8 feet of dry-marker writing surface and magnetic tackboard.

MATERIALS:

**Top:** Plastic laminate or wood veneer surface, grain runs lengthwise

**Cabinet sides:** Plastic laminate or wood veneer surface, vertical wood grain

**Doors:** Plastic laminate or wood veneer surface, vertical-grain, book-matched and balanced with touch-latches

**Credenza and AV cabinet bases:** 3"H black melamine recessed plinth base

**Interiors and shelves:** Black melamine surface

**Presentation board interiors:** Magnetic, dry-erase surface of white porcelain on steel
