

Kimball Office | interstuhl | SILVER

It is not a chair. It is **the** chair.

Silver chair. Words simply do not exist to accurately express the feeling that encompasses you each and every time you seat yourself in this chair.

Designed by renowned European architect and designer Hadi Teherani, the Silver line of chairs possesses a design as sensual and emotional as it is simple and formal. It is a work of art. Each piece is shaped by an elegant aluminum or hardwood shell, creating a form that is impressive, yet inviting. And precisely detailed upholstered

surfaces are as beautiful as they are powerful. The true joy of Silver is in the sitting. The handcrafted seat and backrest cradle every curve and joint, creating unrivaled comfort. And Silver is equipped with patented synchronous movement technology, assuring optimum support in every position.

Silver must be experienced to be understood. But once you know its embrace, you will want it in your life for all time.

Silver K151S2349 mid-back: brushed aluminum; Silver K650S2349 side chairs: brushed aluminum base with Makassar shell, all with Exclusive leather 1777 white; shown with Fluent® desk and storage.

Luxurious.

* Desk chairs, lounge chairs, stool and tables available with cast aluminum base, with white, sandblasted or brushed finishes.

† Side chairs have aluminum base and beech wood shell with black, white or Makassar finishes.

Silver K362S2348 high back: sandblasted aluminum;
Silver K100SG2348 stool with glides; both with Exclusive
leather 1773 red.

A striking blend of **performance** and prestige.

Premium Materials

Each seat and backrest of the Silver chair is finished with stylish wool upholstery or beautiful leather. All materials are hand stitched by precise craftsmen to ensure each Silver chair retains its elegance and strength for years to come.

Distinctive Finishes

All Silver chair models are available with a die-cast aluminum base finished in brushed or sandblasted silver, or coated white. The Silver side chair is available in hardwood beech, finished with Makassar veneer or black or white lacquer.

Matchless Engineering

The Silver chair's controls are recessed into the frame to maintain a sleek appearance. The patented synchronous mechanism combines the backward motion of the backrest with balanced inclination of the seat to provide optimum support for every seated position. An integrated weight adjustment system creates a perfect cradle for every user.

Silver K810S2349 lounge chairs: brushed aluminum, Exclusive leather 1777 white; Silver K852S2349 large lounge table: brushed aluminum with Exclusive leather 1777 white inlay.

The poetic plateau in seating.

“Design needs to make an emotional connection with the character of materials and their use. It was our aim to make the technical complexity in Silver invisible and reach perfection in seating.”

—HADI TEHERANI, ARCHITECT

Sustainability:

In our manufacturing processes, material choices and product designs, Kimball Office shows a strident commitment to sustainable goals. To that end, Silver may contribute to LEED® credits. Please refer to our Environmental Data Sheets, located on www.kimballoffice.com, for specific details. Silver meets all of the IAQ testing requirements for Indoor Advantage Gold Certification from SCS (Scientific Certification Systems).
