ARCUS G
Recessed Wall Luminaire

Simple in form, yet rich in detail, Arcus casts glare-free diffused illumination for general accent lighting. Tempered glass lens features finely beveled edges with exposed matte sidewall, providing both lateral and forward illumination while highlighting wall surfaces. Reveal formed by the painted stainless steel lens frame becomes an illuminated design element. Lens with internal translucent white coating is available in three variations; plain,

striped, or textured. Cast aluminum housing mounts into formed aluminum back-box, suitable for through wiring. All hardware is stainless steel. Standard colors; matte silver grey metallic or graphite grey. Special colors available. See technical data sheet for details.

Listed for Wet Locations
Suitable for use in exterior, interior, and poured concrete walls

ARCUS GA
Surface Mounted Wall Luminaire

Same as ARCUS G, except luminaire mounts into cast aluminum surface mount housing, suitable for through wiring. Surface mount housing is finished in finely textured paint. Standard colors; matte silver grey metallic or graphite grey. Special colors available. See technical data sheet for details.
