

Steel Sculpture by Day.
Beacon of Light at Night.
Cozy Warmth any Time.

The Obelisk by CND

In ancient Egypt an Obelisk stone stood for rays of light, symbolizing the sun god Ra. Set in pairs at entrances, they guarded the building and the people against evil.

Innovative engineering combines both factors - WARMTH + LIGHT - into the elegant, obelisk-shaped tapered patio and deck heater, thus providing a unique experience for homeowners and commercial entities alike.

Contrary to traditional "mushroom" design, WARMTH + LIGHT radiates out at seating level and along the complete length of the tube, making the "hot head - cold tush" experience a thing of the past.

The Obelisk patio heater's thoughtful professional construction allows for easy mobility by utilizing a set of detachable wheels, with extra safety provided by an extremely low center of gravity. A stainless steel cage surrounds the glass tube for additional protection.

The Obelisk.
Like a Bonfire in a Cage.

Precious Outdoor Time can be extended well into chilly evenings. The Obelisk brightens the cooler, darker days of the year, without even setting up extra light sources. Family and guests feel snugly warm and comfortable, while softly dancing light rays delightfully illuminate the patio, roof top terrace, deck, garden, al fresco restaurant, sidewalk cafe or open air bar.

The 25.5" square footprint evolves into a dramatic 7.25 ft. tall tapered sleek stainless steel obelisk-like tower.

Above the enclosed gas tank housing dances an up to 4 ft high flame, which is contained within a clear Japan-made specialty quartz glass tube, thus protecting it from being blown out by wind or weather.

- ▶ Size:
H 86-5/8" | 7.25'
(220 cm)
Base: 25-1/2" x 25-1/2"
(65 cm x 65 cm)
- ▶ Liquid propane (LP)
20 lbs standard tank*
(*not included)
- ▶ Heat Output:
32,500 BTU/h
(9.3 kWh) on high
- ▶ Efficiency:
0.8 kg/h (1.76 lbs/h)
20 lbs gas tank
lasts ~8 to 20 hours
depending on
flame setting
- ▶ Heat Range:
up to 385 sq/ft.
Ø ~19.6 ft. (6 m)
radius ~9.8 ft (3 m)
- ▶ Electronic Ignition
- ▶ 2-step adjustable flame
- ▶ Shut-off tilt valve
- ▶ Includes: wheel kit +
full length poly zip cover
- ▶ Components:
- Premium type 201
stainless steel
- Aluminum Frame
- Japanese specialty
Quarz glass tube
- LP Gas Burner unit
- optional Natural Gas Burner unit
- Regulator unit
- ▶ CE certified
- ▶ Intertek ETL listed | residential | commercial
- ▶ 1 year manufacturer's warranty
