Construction

End cap is die cast aluminum. Joiner bracket is 14 gauge sheet metal. Connectors are extruded aluminum.

Key:

● Feed or support location

Notes:

Special configurations and alternative suspension points available. Suspension points may vary from those shown based on the complete configuration design. Consult factory.

When C100 satin anodized finish is selected for the luminaires, pattern connectors will always be painted C110 aluminum to match. To guarantee a color match between luminaires and pattern connectors, select C110 aluminum or C041 white for the luminaire finish.
