JumpSeat™

Ziba Design

The JumpSeat is a compact auditorium chair that is ideal for auditoriums, theaters and public assembly areas. Plywood and spring steel create the backbone of the JumpSeat's cantilevered structure. Folding to less than four inches thick when not in use, the compact seat allows for the maximum amount of people in the minimum amount of space.

- Flex Spring Seat
- Available in Multiple Seat Widths and Back Heights
- Straight or Radius Row Configurations
- Flat, Sloped or Tiered Floor Installations
- FSC Certified Wood
- Patent Pending
