Tubis™ / Tubis™ Gate.

760 range. Technical details.

Function

Modular, easy-care bench system for furnishing reception and waiting areas with stand-alone benches and linkable system elements, optionally with armrests and side tables. This overview of the range and prices contains basic versions and configurations only. But the modular design of the bench system makes it very versatile. Customized solutions are possible - from the small reception area to a passenger terminal. Tubis is available in three basic versions:

1. Stand-alone settees with up to five seats.
2. System elements which can be assembled in-line as required.
3. System elements with 45° angle tables for 90° inside corner solutions.

Specification of model types and prices on request.

Frame

Legs in aluminium tube, connected by means of a die-cast aluminium latticed spacer rail or an oval aluminium profile (Tubis Gate). Extruded aluminium profile supporting beams with mounting grooves for fixing legs, seat shells, side tables and armrests in the position required.

Die-cast aluminium components coated black or in silver satin finish. Supporting beams and legs optionally coated in the same colour or clear anodized.

Seat

Tubis: shell in perforated sheet steel, anticorrosion-treated and coated in the same colour as the frame; coated in silver for anodized frames. Upper part of backrest resilient. Polyurethane foam upholstery with fibre fleece overlay, fixed to removable upholstery frame in anticorrosion-treated sheet steel. Optionally available with leather-covered headrests with fully upholstered steel frame. On request, with soft fill cushions in leather 74, with exchangeable covers.

Tubis Gate: shell in partially perforated or unperforated sheet steel, anticorrosion-treated and coated in the same colour as the frame; coated in silver for anodized frame. Polyurethane foam upholstery with fibre fleece overlay, fixed to removable cellulose-panel upholstery frame.

Armrests

Black through-dyed integral foam with steel insert, fitted to supporting beams by means of a connector at either end or between seats as required.

Table tops

Moulded plywood with connectors for mounting.

Table top group 1 – laminate:

Table top thickness 18 mm ($\frac{3}{4}$ ")
Laminate according to Wilkhahn laminate colour samples.

Black polyurethane bullnose edge, moulded and seamless, as edge protection.

Table top group 2 –

rippled aluminium laminate:

Table top thickness 18 mm ($\frac{3}{4}$ ")
Silver-grey polyurethane bullnose lipping, moulded and seamless, as edge protection.

Tubis Gate

Table top thickness 5 mm ($\frac{1}{4}$ ")
Table top in sheet steel, coated in the same colour as the seat shells.

Sliding footrest

Sliding footrest in steel with castors, slidable sideways between seat legs. Fully upholstered, removable cover. Fabric upholstery version with artificial leather insert at foot end.

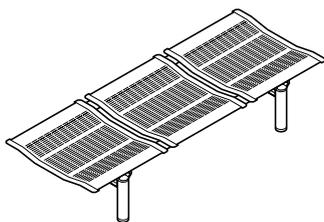

Standards

Tubis benches and settees conform to ANSI/BIFMA X 5.4. Depending on accessories, upholstery version and upholstery material they fulfil various fire protection classifications, including the classification "not flammable".
