Comments:

Harter endorses the use of fabrics with significant recycled content. The percentages above are based on using Vision Crepe, a Harter fabric made with 100% post industrial recycled polyester. You should use fabrics with similar recycled content to maintain this Leed-CI MR 4.1 credit.

Disclaimer:

Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. Harter makes conservative assumptions when compiling this information to provide the most accurate content calculations possible. Variability in market conditions and manufacturing processes as well as product revisions may result in higher or lower content. This document will be reviewed and updated periodically and is subject to change without notice.
