design Antonio Citterio | divani componibili / modular sofas | 2010/2011

# Ray

Ray è un sistema modulare a partire da elementi lineari, chaise longue, terminali e pouf con fodera che generano configurazioni anche angolari e a penisola. Ray lavora sul tema del comfort e sui dettagli sartoriali che si esprimono in particolare nella cucitura a punto cavallo, in tinta o a contrasto, che arricchisce i rivestimenti. Nasce in due profondità, una più tradizionale ed una extra large, per chi desidera posizioni di autentico relax. Completa il sistema la poltrona imbottita, dotata di cuscino schienale e dalle medesime impunture a punto cavallo del divano.

Ray is a modular system based on linear elements, chaise longue, terminal elements and ottoman with slip cover, which can be used to create corner and peninsula configurations. Ray focuses on comfort and tailoring details, particularly the blanket stitch, in the same or a contrast colour, which enhance covers. Created in two depths, this sofa is available in a more traditional version and an extra large version for those in search of true relax. The upholstered armchair completes the system, including a back cushion and the same blanket stitch as the sofa.
