

SLIDING SOFA

standard version/
version with height-adjustable backrest (Designer B.Fattorini)

Sofas and sectionals in two versions:

- standard
- with height-adjustable backrest.

Frame

Frame in solid wood, suspension with elastic belts covered with indeformable variable-density polyether.

Concealed **feet** (4 or 6 feet according to size), standard height 5 cm, or 7 cm upon request.

Seat **cushions** made of variable-density polyether.

Available a wide range of backrest cushions in various dims and consistency to meet any comfort requirements:

- down-filled corner cushions in stitched sections in two dims
- down-filled square cushion
- down-filled rectangular cushions in stitched sections with polyurethane insert, h 38 cm thickness 7 cm

The upholstery of the cushions, either in fabric or leather is always removable.

Optional extra covers if required.

Equipped sectionals

To use either as end or corner units. Frame in solid wood covered in polyether. A cushion to be raised and tilted manually in different positions (either left or right), and a storage compartment in natural anodized aluminium finish.

Equipped sectionals and flanked elements with no arms come with a coupling device. This request must be highlighted by a drawing.

Height-adjustable backrest

To reach the desired comfort the backrest can be lifted by means of an innovative electrically-controlled mechanism. The system consists of an electric motor (24 V, 2.8 A - CE compliance), a transformer-motor control unit (27 V, 11 A - CE compliance), and a push-button panel (5 V, 0.3 A - CE compliance).

Voltage: 220 V (Europe) and 110 V (USA). While ordering, please specify always which voltage is required.

Height-adjustable backrest to 18 cm.

The push-buttons made from stainless steel, are always in the inner side of the left arm (facing the sofa). In models without arms the push-buttons are placed on the lower side of the base (left side facing the sofa).

Cover

The upholstery covers every part of the sofa and is completely removable.

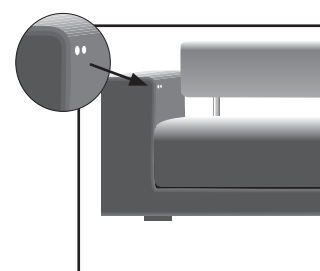

The underlining (in a synthetic stretch fabric for the frame and in cotton for the cushions) makes removing the cover easier and the product maintains its good looks even when uncovered.

Optional extra covers if required.

At MDF Italia's discretion the units in leather may have seams on the back and on the front section.

For the choice of upholstery, please see the table on page 1.61 and the section "fabric collection" on the website.

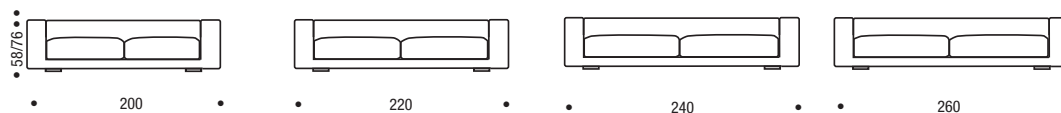

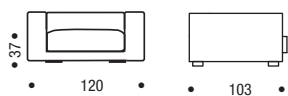

With customer's own leather, in order that the product is properly manufactured, the leather piece must be larger than 5 sqm and with no defects, such as scars or holes.

CUSHIONS

Loose cushions

In solid colour with down filling covered with cotton. This makes removing the cover easier and the cushions maintain their good looks even when uncovered.

Extra covers available.

Dims: 30x50 cm, 40x40 cm o 55x55 cm

Sets of cushions

Sets of decorative cushions for the sofa collection.

Upholstered with fabrics that, though different in weft and composition, maintain a pleasant uniformity in colour:

- fabric Quarzo white
- fabric Florite ochre
- fabric Galena sand
- fabric Pirite brown/grey

Each set is composed of 4 square cushions in down.

The dims are 45x45 or 55x55cm.
