

WHITECASE

(Designer B.Fattorini)

A system of stackable and modular units as a column designed for use at home, office or in community areas. The storage units can be open or closed with doors, drawers or large drawers.

The elements are made from medium-density wood fibreboards, thickness 2 cm, lacquered in white.

UNITS

Modular units

The units, 41.2 cm deep and 94 or 124 cm long, are of four types:

- base unit, with white plinth resting on the ground and adjustable small feet
- stackable unit, to be stacked on the base unit
- stackable unit with top to complete the column
- base unit with plinth and top to be used as a single storage unit

Units available:

- in height 43.2 or 41.2 or 45.2 cm: open or closed with a door, with two drawers, with a large drawer or with a large drawer with files holder
- in height 22.6 or 20.6 or 24.6 cm: open or closed with one drawer.

Hanging units

Hanging element 43.2 cm in height, 41.2 cm in depth and 94 or 124 cm in length, open or closed with a door.

DOORS

The retractable doors with a compass hinge are made either with

- a white-lacquered aluminium frame and extra light tempered clear or satin-finished glass,
- with sandwich panels, lacquered in white.

Thanks to a system of pins and springs, the door is self-centering and always detachable. The doors open and close by means of a simple "push-and-open" pressure.

DRAWERS

Drawers and large drawers, always provided with a synchronizer, have fronts in white-lacquered medium-density wood fibreboards. The sides of drawers and large drawers are in white-lacquered steel, the bottom comes in 1.6 cm white chipboard melamine-coated wood. All sides allow front adjustment.

Drawers and large drawers are always provided with a handle at full length, made of white-lacquered extruded aluminium. Drawers can be equipped with a bottom for CD rack. Drawers and large drawers come with fully-extractable Blum guides, and are provided with the closing shock absorber device "motion" as a standard option.

Attention: assembly recommendations

- The small adjustable feet placed in the base allow the balancing of the column directly from the inside.
- With free-standing compositions composed of over 5 units, wall fixing is recommended.
- In the event of unit installation into niches, please contact our Sales Department to double-check dimensions and usable space.

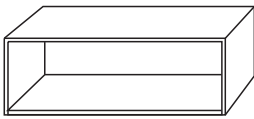

Accessories

- **One-piece top** made of 4 mm thick extra light tempered glass, lacquered in white, in the sizes 94, 124, 188 (94+94), 218 (94+124) and 248 (124+124) cm for one or two flanked columns.
- **Inside glass shelves** in 6 mm thick extra light tempered glass, lacquered in white on one side, for open cabinets or with doors. If with inside shelf, the cabinet is pre-drilled in the middle.
- **Locks with a universal key (mounted only on a wooden panel)** with the same key you can open any drawer with lock
- **Locks with a cipher key (mounted only on a wooden panel)** this is for opening exclusively all drawers in the same composition.

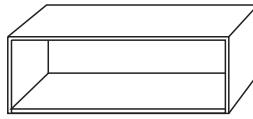

SIZES OBTAINABLE WITH UNITS IN H 41.2 CM OR WITH UNITS IN H 41.2 CM PLUS ONE UNIT IN H 20.6 CM, PLINTH INCLUDED. THE THICKNESS OF THE TOP IS ALWAYS TO BE ADDED TO THE SIZE.
