

# INTERSECTION (Designer C.Grosser)

---

A coffee table of strong image.

#### **Frame**

Made with a 4 mm thick aluminium sheet, milled and curved, lacquered with white epoxy powder coating, or with a 3 mm sheet of mirror-polished stainless steel.

#### **Outdoor use**

The white version of the table is suitable for outdoor.

Any material left outside, even if properly treated, can have superficial molecular and colour changes during its lifetime. Of course, the amount of alterations is directly related to the amount of exposure to weather and to the geographical area (for ex., high humidity and/or salinity). Regular maintenance, for instance periodic cleaning with water, increase resistance to corrosion.

#### **Dims**

100x100 cm, height 23 cm.
