

Allsteel®

The education environment is constantly changing – it has to. Changing demographics, learning styles, and technologies require that facilities be more dynamic. That space be more versatile. And that students are encouraged and supported to learn anywhere. The demand is for solutions that engage and inspire, and for advancements that combine comfort and durability. Allsteel took on that assignment and brought Inspire, a universal seating solution, to the campus.

Inspire™
Higher Education

Well-prepared for any setting.

Inspire redefines flexibility with a breadth of line that stretches from the classroom to the café, and everywhere in between. Eight contemporary colors pair with black and silver frame finishes and optional seat and back cushions to support a consistent aesthetic throughout your space. All with unmatched comfort, durability, and style.

TriFit™ Technology

Automatic ergonomic systems are designed into the seat and back to allow for healthy movement and provide the comfort essential to maintaining healthy posture in an active learning environment.

- Non-mechanical seat suspension provides weight-activated movement.
- Motion-sensing back recline intuitively adjusts with user movement.
- Material flexure moves with the body to reduce pressure and allow airflow.
