Radon F

The fundamental geometric forms - the circle and the triangle - are key elements in the design of the Radon series. The light from Radon is direct and adjustable. The shade is multi-directional and furnished with an asymmetrical reflector, ensuring that light spreads out precisely to the surface where it is needed. Radon is a light and mobile lamp, made of moulded materials and mounted with rubber feet so it stands firm. The neck at the shade provides flexibility and brings the lamp to life. There is also some air between the shade and the reflector, which insulates and allows you to handle the shade. The switch is placed at the top of the lamp, while the cord leads discreetly out of the back leg to help preserve the lamp's clean lines.

Surface

Matt lacquer, matt chrome.

Material

Shade: Sandblasted aluminium laquered.

Base: Turned brass and steel bars/round steel with matt chrome coating.

Installation

Cable: Pvc cable.

Cable length: 2450 mm. Switch: On shade.

Class

IP20, Class of insulation II.

Product family

Colours:

White

Black

Product code	EAN no.	Surface	Light source	Max light source dimensions	Total weight
51001608	5702370016081	Black lacquer, matt chrome	E14 max 25W	Max length: 90 mm	5,8 kg
