THE TRANSITION ROOM

The Transition Room supports both Flat Screen Monitor and Video Projection Technology equally well. The Hub portion of the Articulating Table is designed to hold a small sized Video Projector to provide a cost-effective alternative to ceiling mounting. A Nevers Dual Write Marker Board and a Video connection is all that is needed to convert any room into a Transition Room!

WITH METAL BASE

The Transition Credenza is so unique, it is a Nevers patented element. The Transition Credenza provides a nesting location for the Connector Table when it is not needed as part of the table configuration. In this position, the Transition Credenza functions just like any Buffet Credenza, supporting the hospitality needs of your meetings. When the Credenza moves to combine with the Articulating Table, the Cabinets continue to function as Buffet Storage devices, continuing to support your hospitality needs.

The Media Wall elegantly supports Flat Screen Monitors and the support technology that powers it. In the "e-version", the low-boy credenza is constructed with a vented rear cabinet. Optional power, equipment racks and ventilation fans are standard options.

Wall Works and Wall Writer have been updated to add style and function to capturing meeting notes. Nevers' unique in-room storage units provide a convenient place to store the portable, hanging marker board/tackboards.
