Meeting Needs

Nevers® has a product portfolio that can enhance every meeting need. Each component focuses on function without compromising design or quality. When you arrange these components, they allow you to increase the productivity of people, meetings and spaces. Nevers calls this concept The Complete Meeting Room™.

The Complete Meeting Room offers you the unsurpassed ability to turn any environment into a more productive meeting area... and any meeting area into a more profitable one. Which is one of the many reasons to choose Nevers for all your meeting needs.

Another objective is our Multi-Tasking philosophy. We understand that in today's corporate climate, a room has to do more than serve a single purpose. That's why The Complete Meeting Room offers the flexibility to perform equally well for a range of meeting types. Because many meetings incorporate media presentation, we provide a seamless interface between our furniture and technology. We also realize that even though function is a critical element, so is aesthetics. Our furniture and accessories impart a notable design presence, as well.

Finally, to help you ensure you can realize the benefits Nevers offers without delay, we offer a Quick Ship Program to speed the delivery of our most popular products.

Terms and Conditions of Sale

Credit and Payment Terms
Nevers Industries Inc policy does not allow for automatic open account terms for new customers, customers whose account is not current, individuals or residential accounts. *New customers are required to make a deposit for the full value of the merchandise ordered.* A credit application will be sent to each new customer. Credit will be established upon review of the responses given by the customer's references and will appear on future order acknowledgements. New customers are encouraged to begin establishing a credit rating with Nevers Industries Inc prior to placing an order. Our customers are responsible to provide the necessary current and accurate information. *Upon establishment of an open account, terms are Net 30.* 1 1/2% per month service charge will be added to all past due accounts. Accounts that are 90 days past due will be subject to collection proceedings without any additional notice. *Orders will not be processed for past due accounts until the amount due, including any service charges, is paid in full.* Standard product orders exceeding $50,000 net will require a down payment of 33%. Custom orders will require a down payment of 50% and will not be scheduled for production until the down payment is received. Balance is then due before shipment. *A bank letter of credit may be required for any order over $50,000 net.*

Prices
Our prices are list, freight prepaid, F.O.B. Plymouth, Minnesota, and are subject to change without notice. Quoted prices must be accepted within 30 days or re-quoted for date and approval. Freight is prepaid and allowed for normal ground transportation within the 48 contiguous states, must ship to dock location. Air freight, will calls, and special delivery will be quoted and invoiced separately. Prices do not include installation, storage, or sales tax.

Packaging
Nevers Industries Inc pricing includes packing for North American shipment. Whenever possible, Nevers will blanket-wrap your order; otherwise, all products will be packaged. Only environmentally safe packing materials are used. Large furniture pieces will be packed with wood reinforcements for added protection. For special packaging, crating or overseas shipment, please contact our Customer Service Department.

Delivery
Nevers Industries Inc will select the method of shipment, carrier and routing. Carrier selection is solicited to provide the best service to each customer in their particular location. All shipments are sent prepaid, FOB Plymouth, Minnesota. *Nevers Industries Inc liability ends when the carrier issues a receipt to Nevers Industries Inc. This is an acknowledgement by the transportation company that the shipment has been received by the freight company in good condition and title of the goods and risk of loss transfers to the buyer. The order shall be considered complete. Prepaid freight does not change the F.O.B. status of the product and risks involved in the shipment. We reserve the right to make partial shipments.* Invoices relevant to the partial shipments are payable as they fall due.

Freight Terms
All orders under $2,000 net are subject to a minimum order/additional freight charge of $100 net; Nevers Industries Inc also reserves the right to establish a freight and fuel surcharge fee to cover variable freight costs. This charge will be established at the time of order and acknowledgement date.

Lead Times
The lead time on an order begins when Nevers' Order Entry Department has verified the validity of the items ordered and has received at our manufacturing facility all COM materials supplied by others. All acknowledgments will contain current lead time information. If for some reason the buyer does not want it early, please list a Do Not Ship before date. We are not responsible for delays in scheduling or failure to make scheduled shipping date due to strikes, lockouts or other labor complications, war, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply or excessive cost of fuel or raw material, delays from suppliers, compliance with Government regulations, or other unforeseen contingencies. When delays in product delivery are caused by the purchaser, we reserve the right to draw up to 100% of the contract price and to charge to the purchaser any costs incurred by us due to such.

Order Acknowledgement
All orders are subject to final acceptance by Nevers Industries, Inc. Receipt of our acknowledgement indicates acceptance of your order subject to the terms and conditions set forth in Our Acknowledgement. If pricing on the purchase order is different than the acknowledged pricing, the acknowledgement will take precedent over the purchase order. Nevers Industries, Inc. attempts to clarify all orders. But in the event of any discrepancy, please notify Nevers Industries Inc immediately. Failure to notify Nevers of a discrepancy within five (5) days will constitute acceptance of the order as acknowledged. All orders are subject to credit approval at any time.

Change Orders
Nevers Industries, Inc. will make every attempt to honor any reasonable change request to standard product provided that the request is received prior to start of production. Change orders will be accepted only if the request is made in writing and received in time to make the change. Nevers Industries, Inc. reserves the right to increase our

acknowledged price and ship date if necessary to make the requested changes. Nevers Industries Inc will make every reasonable effort to stop production, scheduling shipments, etc., upon receipt of written notification of changes, cancellations, or deferments of delivery. Nevers will assess charges to the customer for change orders, cancellations, and delivery deferments as stipulated in the following:

Change Orders:
- Received prior to start of production will be charged $200 net.
- Received after production has started involving design changes or reductions in quantity will not be accepted. The customer will receive the goods as ordered and be liable for the amount due.

Cancellations:
- Received prior to start of production will be assessed a $500 net cancellation charge.
- Received after production has started will be assessed the total accumulated cost of the project plus a $500 net cancellation charge.

Deferred Shipments
All merchandise will ship upon completion of production. If customer is unable to take delivery of merchandise when ready for shipment, Nevers Industries, Inc. may transfer the merchandise to storage. All cost for storage and freight will be at customer's expense. Transfer to storage will be considered delivery for all purposes including invoicing and payment. Customer will bear the risk of loss or damage during storage. Deferred shipment charges will be assessed from the completion date in accordance with Nevers policy for Storage by the Manufacturer.

Storage By The Manufacturer
No shipment can be postponed by the customer. Nevers Industries Inc reserves the right to transfer products to storage and issue its invoice for the products at that time. Such transfer to storage shall be deemed delivery to the customer for all purposes. Long term storage over 30 days may be subject to surcharges.

Shipment Claims
Legal title of merchandise passes to the buyer upon acceptance by the carrier. The buyer must inspect all cartons on arrival for visible or concealed damage. In the event of visible freight damage, the buyer must make a notation on the freight bill; immediately notify the carrier for an inspection; and file a freight claim. *Do not sign the receipt until the visual inspection is complete at the time of delivery. If concealed damage is discovered,* the carrier must be notified within 15 days. Keep all packaging materials for inspection (do not destroy).The buyer has the sole obligation of seeking recourse against the carrier. Caution: When a clear receipt is obtained by a carrier, the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damages and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

Returns
All Nevers Industries, Inc. products are made to order. Therefore, merchandise may not be returned without specific consent from Nevers Customer Service Department. Unauthorized returns will be refused by the shipping department.

Miscellaneous
All merchandise shown in our catalog is the property of Nevers Industries Inc. We reserve the sole right to manufacture and distribute it. All patterns, tools, and designs developed for the production of any product will remain the property of Nevers Industries Inc. All published dimensions are approximate and if the exact sizes are critical, we suggest that you request actual measurements. Price list data supersedes all other specifications, whether verbal or written, and may not be altered without the written consent of an officer of Nevers Industries Inc. Typing and clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time without notice. Due to variations beyond our control, all wood and upholstery products are subject to slight variations in color, texture, and grain.

Specifications
Nevers Industries, Inc. reserves the right to change prices, specifications, fabrics, dimensions and finishes at any time without prior notice. This right to change also applies to discontinuing models at any time, catalog contents and price list contents.

Warranty
Nevers Industries, Inc. warrants its products to be free from defects in material and workmanship under normal and reasonable use and service for a period of ten years from the date of shipment to customer. Proprietary supporting products, which are manufactured by others and sold by Nevers Industries, Inc. carry the original manufacturer's warranty. The decision of defects in workmanship or materials or the decision of misuse or abuse remains with Nevers Industries, Inc. No warranties other than those contained herein will be implied and Nevers Industries, Inc. does not authorize any person to create any warranties other than those contained herein.

General Specifications

Wood Veneers
Nevers® products are manufactured primarily of Plain Sliced Mahogany, Black Walnut, White Oak, Cherry and Maple. Other woods may be specified. Please contact Customer Service for price and availability. Mahogany, Walnut, Oak, Cherry and Maple veneer panels are laid up with plain sliced faces and are balanced on back to minimize warping and balance stresses.

Ribbon striped mahogany is available at an upcharge.

Wood Surface Cleaning
Wood furniture should be cleaned with a damp, soft cloth, wiping in the direction of the wood grain. Wood surface should then be dried with a dry, soft cloth. Monthly, wood surfaces should be cleaned with a soft cloth using a quality wood cleaner. Following cleaners directions, slightly dampen soft cloth and wipe in direction of wood grain. Dry the wood surface with a dry, soft cloth. Ammonia or any type of oil should be avoided.

Standard Wood Finishes
Nevers' standard finish is a multi-step process involving dyes, stain, sealer, toner and lacquer. For added protection and durability, the final top coat on all table tops is catalyzed lacquer. All of the finishes have been formulated for maximum clarity to enhance the natural characteristics of each particular wood species. Standard finish is open pore. Semi-filled and filled finishes require an upcharge and may extend the lead time. Please contact Customer Service for price and delivery date.
For other wood species, contact Customer Service for special pricing and availability.

Oak – Natural, Medium, Dark, Ebony on Oak
Walnut – American, Dark, Mahogany on Walnut, Presidential, Espresso
Mahogany – Light, Brown, Dark
Cherry – Natural, Amber, Brown, Medium, Dark, Espresso, Cinnamon
Maple – Natural, Golden, Copper, Autumn
Ribbon Stripe Mahogany available at upcharge, contact Customer Service.

Custom Wood Stains and Finishes
Nevers offers the capability of matching your custom stains or finishes. Virtually any wood finish or color sample can be matched to your specifications. A finish sample or stain sample is required from the customer before the process of matching approval can begin. The upcharge for custom finishes varies with the type of finish and also with the quantity ordered. Please contact Customer Service for pricing. For custom stain match – any order under $5000 list there is a $270 net upcharge.

Note: COLOR VARIATION WILL OCCUR IN THE GRAIN OF ALL WOOD SPECIES.
This is an inherent characteristic caused by the annual growth rings found in all hardwoods and the manner in which the boards and veneers are cut across these growth rings. In some species, this color variation is very subtle. In other species this color variation is obvious and at times radical.

The process of finishing hardwood veneers determines whether these variations are enhanced or subdued. Natural finishes will show color variations in the grain and enhance the beauty of the wood to its fullest extent. Other stains and finishes tend to blend in these variations to some extent dependent upon the depth of color and the particular method of application.

Standard Laminates
Laminate panels are laid up with Wilsonart® standard grade high pressure laminate with an equalized back to minimize warping and to balance stresses. Any laminate from the Wilsonart® General Purpose Series is standard. All Wilsonart® laminates with matte/textured finish (–60) are standard.

Custom Laminates
Any commercially available laminate may be specified. Most custom laminate orders may extend the standard delivery date. Most non standard Wilsonart® laminate is $270 net per order per color. Call Customer Service to confirm pricing.

Standard Board Fabrics
WallWorks™ Presentation Boards and Metal Frame Tackboards come standard in Shadow. Visual Boards and Fabric Tackboards are available as standard with C.F. Stinson – Pattern "Mira" series fabric. Quick Ship fabric colors are Shadow or Dune. If no color selected, Shadow is shipped.

Standard Color Coats
Color Coat is available to match all standard Wilsonart® solid colored laminates.

Custom Sizes
Nevers has the capability to manufacture any piece in the product line to your size specifications. Please contact Customer Service for pricing and availability.

Nevers Meeting Link™

The Link Between Furniture and Technology

UNDERSTANDING NEVERS MEETING LINK™

The Nevers Meeting Link System is comprised of Technology Centers and Power Centers

Technology Centers

Technology Centers conform to UL 183, 20 AMP plug is the standard for manufactured electrical systems. Nevers proprietary Technology Centers use modular power connections, are daisy chainable and are ideal for all installations where multiple electrical outlets connect to a single power in-feed. They are available in single or multiple circuits. Technology Centers can be hardwired or connected with a molded plug. Data and AV are easily integrated in Technology Centers.

INSTALLATION: Technology Centers are installed in the table base system *before* the top is placed. This provides electrical, data and audio visual contractors a convenient, well lit work area. The table top is placed on the base system *after* technology integration is complete. This helps prevent table top damage attributable to third party contractors.

Power Centers

Power Centers conform to UL962A , the standard for furniture power distribution units. Power centers connect directly to a power outlet with a molded plug. Power Centers are a flexible, cost effective solution for mobile or light duty applications. Power Centers do not connect in series. Data and basic AV connections are easily integrated in Power Centers.

INSTALLATION: Power Centers drop through the table top. They are the last part of the table to be installed. This is a quick and simple installation process for light duty power/voice/data applications.

Pre-Configured Meeting Link™

Nevers offers pre-configured Meeting Link solutions for all tables. This is an easy, trouble free method to specify power, voice and data connections. Whether you have light, medium or heavy applications, there is a convenient pre-configured solution.

Custom Meeting Link™

Meeting Link can be custom configured to meet any specific requirement. All Meeting Link products are available "a'la cart" so you can develop a system that meets your clients exact needs.

   Tables 20' and longer are available with hard wire only.

General Information

The number of outlets referenced are accessible through the tabletop access doors. If more outlets are needed, additional duplex receptacles can be ordered and easily installed in the power blocks on the outside of the channel beneath the table top. The maximum number of outlets is increased to twice the quantity referenced above. Contact customer service at 800.242.2443.

AZ Bullnose

Special Features:

Breakout Tables are designed primarily for use as a conference table, with occasional "breakout" into smaller collaborative groups; or as private, individual work tables. Edge detail is on the outside perimeter of composition. Inside connecting edges are eased.

Custom Compositions:

Breakout tables are designed to be easily modified to meet any requirements for composition and component sizes. Please contact customer service at 800.242.2443 with your requirements.

General Specifications:

1. Tops are 1 1/4" thick. Edges are NII® construction joinery.
2. Bases are designed for heavy usage and reconfiguring. Bases are T-Leg with Nevers EasyGlide™ levelers
3. Ganging Clamps included

*Functional Seating Capacity based on a usable work surface width of 30".

Pre-Configured Meeting Link™ is an easy to specify system of Technology Centers preconfigured to a specific table size. Each Technology Center houses two Electrical Outlets and three Universal Data Plates. The data plates are easily removed to allow for insertion of up to 6 voice, data or
AV connectors per Technology Center. The channel also has a Kensington lock attachment capability.

The Technology Centers are mounted under the table top and are ganged to allow for a single source in-feed of the electrical, voice, data and av connections. The electrical in-feed may be specified as either hard wired or soft cord plug in.

Technology Centers for Customizing Meeting Link™ Capacities
12"l x 6"w
Please note – location drawing required*

Model Number	Voice Data and AV Port Capacity	Electrical Outlets	Price
R/PV5/AA	6	2	$914

How to Order:

See above

*When ordering Customized Meeting Link™, a drawing of the table top with the location of each Technology Center is required. If ordering multiple Technology Centers for 1 table, specify on drawing if ganging is required. For additional assistance in specifying/ ordering Technology Centers, please contact customer service at 800.242.2443.

** Each Technology Center has capacity for up to 6 voice, data or av connectors.

Pre-Configured Meeting Link™ is an easy to specify system of Technology Centers preconfigured to a specific table size. Each Technology Center houses two Electrical Outlets and three Universal Data Plates. The data plates are easily removed to allow for insertion of up to 6 voice, data or AV connectors per Technology Center. The channel also has a Kensington lock attachment capability.

The Technology Centers are mounted under the table top and are ganged to allow for a single source in-feed of the electrical, voice, data and av connections. The electrical in-feed may be specified as either hard wired or soft cord plug in.

Technology Centers for Customizing Meeting Link™ Capacities
12″l x 6″w
Please note – location drawing required*

Model Number	Voice Data and AV Port Capacity	Electrical Outlets	Price
R/PV5/AA	6	2	$914

How to Order:

See above

*When ordering Customized Meeting Link™, a drawing of the table top with the location of each Technology Center is required. If ordering multiple Technology Centers for 1 table, specify on drawing if ganging is required. For additional assistance in specifying/ ordering Technology Centers, please contact customer service at 800.242.2443.

Fixed, Shared Leg Compositions

Fixed, Shared Leg Compositions

Multi Purpose Tables are designed to be easily modified for fixed position, shared leg applications. This allows the Multi Purpose tables to be specified as an economical solution for Presentation/Boardroom compositions or fixed Classroom/Training compositions. Fixed table compositions also allows specification of Nevers Meeting Link™ Technology Centers and modesty panels.

To specify Custom Compositions simply contact customer service at 800.242.2443 with your room requirements.

Special Features:

e-Version™ Credenza
Credenzas are ready for the internal mounting of AV equipment and AV equipment racks. This includes two openings in the back of the credenza for electrical/AV wire pass through, heat venting for AV equipment and ample space for AV and electrical wire pass throughs for the entire width of the credenza.

Monitor Deck™
The monitor deck is designed for mounting of flat screen monitors onto the deck wall. The deck wall has a 6" set back from the face of the display/storage cabinets and allows the monitor to be in a forward position.

Display/Storage Decks
Display and Storage Decks have a wire management channel in back, center side grommet openings into the Monitor Deck and grommet openings into the credenza. 6 adjustable shelves in upper (3 on each side).

General Specifications:

Credenzas with Monitor Deck and Side Decks are designed to function as either a stand alone unit or as the central component for a larger MediaWall™ configuration. Units ship complete with Power Supply consisting of 6 outlet power strip with master on/off switch, 15 amp circuit breaker and 7' power cord.

Optional:

Larger Size Credenzas
24"d x 29"h credenzas, over 90" wide , may be specified and priced by the number of doors.

Please Specify
1. Model R/CNM/number of doors $1,153 per door.
   a. Top for credenzas 120" wide and under will be one section. Over 120" wide, the top will be in two sections and joined in the center of the credenza.
   b. For final dimension, allow 18" per door

Special Features: e-Version™

24"d credenzas are designed and ready for the internal mounting of AV equipment and AV equipment racks. This includes two grommet openings in the back of the credenza for electrical/AV wire pass through, heat venting for AV equipment and ample space for AV and electrical wire pass throughs for the entire width of the credenza.

General Specifications:

The Credenzas are designed to provide storage space for meeting and conference room areas. They are designed with ample interior storage space and include 1 adjustable shelf in each compartment. E-Version credenzas have cutouts for needed air circulation of electronic equipment and are sized to accept most equipment racks.

Optional:

Door Pulls
Model Number H1
Silver or Black (silver shipped if none specified)
Model Number H3
Specify color: Brushed Nickel, Chrome, Black
Model Number H0

How to Order:

Please Specify
1. Top Model Number with Edge Code
2. Wood Species and Finish – see page 5
3. Optional Power/Communications - see pages 96 and 97
4. Table Bases are listed on pages 92 thru 95

Edge Code:

AS Step Oval

AA Step Radius

AD Beaded

AQ Traditional

Optional:

Grain Pattern
Starburst with Ebonized Inlay
Model Number R/SBE $2,570
Inlay Only
Model Number R/INL $1,760

Wood Trim Laminate Tops
Table tops may be ordered with a laminate inset in any standard Wilsonart Laminate.
Model Number LIN no charge

General Specifications:

1. Tops are 1 1/4" thick. Edges and Tops are NII® construction joinery.

   Tables 20' and longer are available with hard wire only.

General Information

The number of outlets referenced are accessible through the tabletop access doors. If more outlets are needed, additional duplex receptacles can be ordered and easily installed in the power blocks on the outside of the channel beneath the table top. The maximum number of outlets is increased to twice the quantity referenced above. Contact customer service at 800.242.2443.

Special Features:

Breakout Tables are designed primarily for use as a conference table, with occasional "breakout" into smaller collaborative groups; or as private, individual work tables. Edge detail is on the outside perimeter of composition. Inside connecting edges are eased.

Custom Compositions:

Breakout tables are designed to be easily modified to meet any requirements for composition and component sizes. Please contact customer service at 800.242.2443 with your requirements.

General Specifications:

1. Tops are 1 1/4" thick. Edges are NII® construction joinery.
2. Bases are designed for heavy usage and reconfiguring. Bases are T-Leg with Nevers EasyGlide™ levelers
3. Ganging Clamps included

*Functional Seating Capacity based on a usable work surface width of 30".

Pre-Configured Meeting Link™ is an easy to specify system of Technology Centers preconfigured to a specific table size. Each Technology Center houses two Electrical Outlets and three Universal Data Plates. The data plates are easily removed to allow for insertion of up to 6 voice, data or
AV connectors per Technology Center. The channel also has a Kensington lock attachment capability.

The Technology Centers are mounted under the table top and are ganged to allow for a single source in-feed of the electrical, voice, data and av connections. The electrical in-feed may be specified as either hard wired or soft cord plug in.

Technology Centers for Customizing Meeting Link™ Capacities
12"l x 6"w
Please note – location drawing required*

Model Number	Voice Data and AV Port Capacity	Electrical Outlets	Price
R/PV5/AA	6	2	$914

How to Order:

See above

*When ordering Customized Meeting Link™, a drawing of the table top with the location of each Technology Center is required. If ordering multiple Technology Centers for 1 table, specify on drawing if ganging is required. For additional assistance in specifying/ ordering Technology Centers, please contact customer service at 800.242.2443.

** Each Technology Center has capacity for up to 6 voice, data or av connectors.

Pre-Configured Meeting Link™ is an easy to specify system of Technology Centers preconfigured to a specific table size. Each Technology Center houses two Electrical Outlets and three Universal Data Plates. The data plates are easily removed to allow for insertion of up to 6 voice, data or AV connectors per Technology Center. The channel also has a Kensington lock attachment capability.

The Technology Centers are mounted under the table top and are ganged to allow for a single source in-feed of the electrical, voice, data and av connections. The electrical in-feed may be specified as either hard wired or soft cord plug in.

Technology Centers for Customizing Meeting Link™ Capacities
12"l x 6"w
Please note – location drawing required*

Model Number	Voice Data and AV Port Capacity	Electrical Outlets	Price
R/PV5/AA	6	2	$914

How to Order:

See above

*When ordering Customized Meeting Link™, a drawing of the table top with the location of each Technology Center is required. If ordering multiple Technology Centers for 1 table, specify on drawing if ganging is required. For additional assistance in specifying/ ordering Technology Centers, please contact customer service at 800.242.2443.

Larger Size Credenzas

24"d x 29"h credenzas, over 90" wide , may be specified and priced by the number of doors.

Please Specify
1. Model R/CFM/number of doors $1,153 per door.
   a. Top for credenzas 120" wide and under will be one section. Over 120" wide, the top will be in two sections and joined in the center of the credenza.
   b. Final size is determined by simply adding together the standard sized credenzas.

Special Features: e-Version™

24"d credenzas are designed and ready for the internal mounting of AV equipment and AV equipment racks. This includes two openings in the back of the credenza for electrical/AV wire pass through, heat venting for AV equipment and ample space for AV and electrical wire pass throughs for the entire width of the credenza.

General Specifications:

The Credenzas are designed to provide storage space for meeting and conference room areas. They are designed with ample interior storage space and include 1 adjustable shelf in each compartment. E-Version credenzas have cutouts for needed air circulation of electronic equipment and are sized to accept most equipment racks.

Optional:

Additional Pens/Erasers
Set of 4 Dry Erase pens and eraser:
Model R/PEN/01 $54

Writing Surface:

Dual Write™ Writing Surface: Primarily designed as an excellent low gloss dry erase writing surface, it also serves as a projection screen for those images that don't require an embossed surface.

Porcelain low gloss writing surface is the highest performing surface that is available, and is the only surface that is guaranteed to not chip, ghost or scratch for the life of the product.

General Specifications:

Wood White Boards feature your choice of Dual Write™ or Porcelain writing surface, a wood tray and a detailed frame. All White Boards ship complete with four dry erase markers, eraser and all hardware required for mounting. Hidden Z-bracket mounting is used.

Fabric Tackboards

Nevers Meeting Link™

The Link Between Furniture and Technology

UNDERSTANDING NEVERS MEETING LINK™

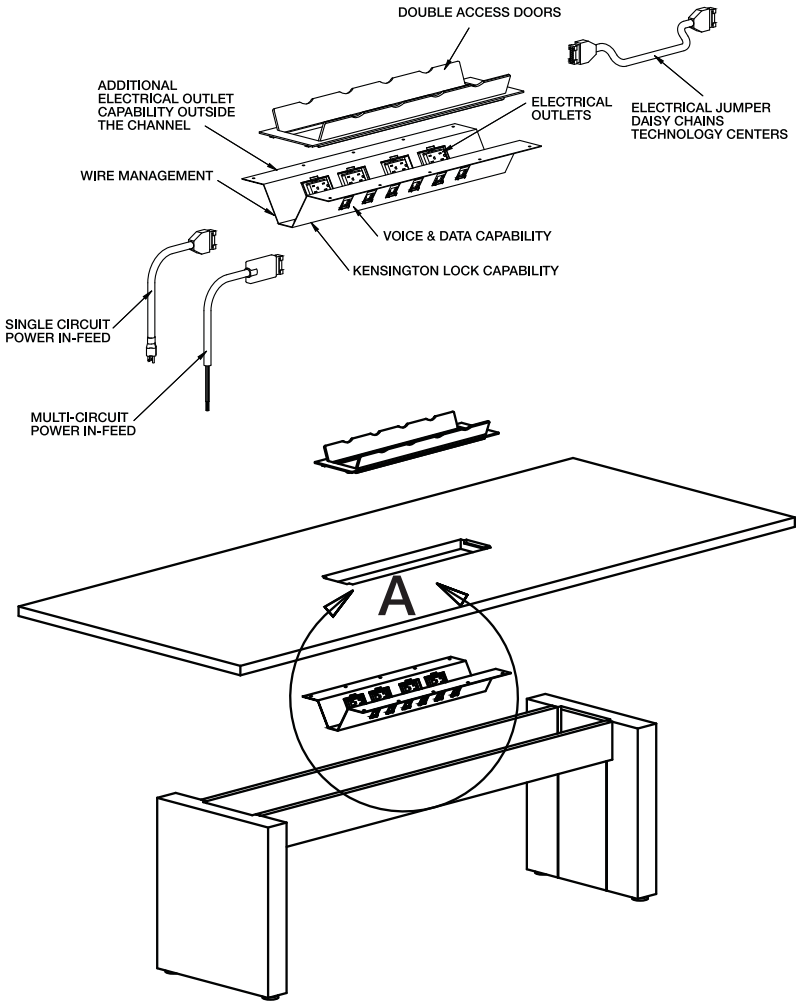
The Nevers Meeting Link System is comprised of Technology Centers and Power Centers

Technology Centers

Technology Centers conform to UL 183 20 AMP Plug, the standard for manufactured electrical systems. Nevers proprietary Technology Centers use modular power connections, are daisy chainable and are ideal for all installations where multiple electrical outlets connect to a single power in-feed. They are available in single or multiple circuits. Technology Centers can be hardwired or connected with a molded plug. Data and AV are easily integrated in Technology Centers.

INSTALLATION: Technology Centers are installed in the table base system before the top is placed. This provides electrical, data and audio visual contractors a convenient, well lit work area. The table top is placed on the base system after technology integration is complete. This helps prevent table top damage attributable to third party contractors.

TECHNOLOGY CENTERS



Power Centers

Power Centers conform to UL962A , the standard for furniture power distribution units. Power centers connect directly to a power outlet with a molded plug. Power Centers are a flexible, cost effective solution for mobile or light duty applications. Power Centers do not connect in series. Data and basic AV connections are easily integrated in Power Centers.

INSTALLATION: Power Centers drop through the table top. They are the last part of the table to be installed. This is a quick and simple installation process for light duty power/voice/data applications.

Pre-Configured Meeting Link™

Nevers offers pre-configured Meeting Link solutions for all tables. This is an easy, trouble free method to specify power, voice and data connections. Whether you have light, medium or heavy applications, there is a convenient pre-configured solution.

Custom Meeting Link™

Meeting Link can be custom configured to meet any specific requirement. All Meeting Link products are available "a'la cart" so you can develop a system that meets your clients exact needs.

General Information

The number of outlets referenced are accessible through the tabletop access doors. If more outlets are needed, additional duplex receptacles can be ordered and easily installed in the power blocks on the outside of the channel beneath the table top. The maximum number of outlets is increased to twice the quantity referenced above. Contact customer service at 800.242.2443.

20′	240″ x 60″	R/TM1/24060	26,708

*All components are 30"x 60"

Special Features:

Breakout Tables are designed primarily for use as a conference table, with occasional "breakout" into smaller collaborative groups; or as private, individual work tables. Edge detail is on the outside perimeter of composition. Inside connecting edges are eased.

Custom Compositions:

Breakout tables are designed to be easily modified to meet any requirements for composition and component sizes. Please contact customer service at 800.242.2443 with your requirements.

General Specifications:

1. Tops are 1 1/4" thick. with PVC/edge.
2. Bases are designed for heavy usage and reconfiguring. Bases are T-Leg with Nevers EasyGlide™ levelers.
3. Ganging Clamps included

*Functional Seating Capacity based on a usable work surface width of 30".

Pre-Configured Meeting Link™ is an easy to specify system of Technology Centers preconfigured to a specific table size. Each Technology Center houses two Electrical Outlets and three Universal Data Plates. The data plates are easily removed to allow for insertion of up to 6 voice, data or
AV connectors per Technology Center. The channel also has a Kensington lock attachment capability.

The Technology Centers are mounted under the table top and are ganged to allow for a single source in-feed of the electrical, voice, data and av connections. The electrical in-feed may be specified as either hard wired or soft cord plug in.

Technology Centers for Customizing Meeting Link™ Capacities
12"l x 6"w
Please note – location drawing required*

Model Number	Voice Data and AV Port Capacity	Electrical Outlets	Price
R/PV5/AA	6	2	$914

How to Order:

See above

*When ordering Customized Meeting Link™, a drawing of the table top with the location of each Technology Center is required. If ordering multiple Technology Centers for 1 table, specify on drawing if ganging is required. For additional assistance in specifying/ ordering Technology Centers, please contact customer service at 800.242.2443.

How to Order:

Please Specify

1. Top Model Number with Edge Code
   For PVC Edge: Specify PVC Color: Black, Khaki Brown, Silver Fog
2. Laminate Color
   Any standard Wilsonart Laminate
3. Optional Power/Communications
   – see page 157

Edge Codes:

LS Lineal Self Edge

LV Lineal PVC Edge

Modesty Panel Code:

00 No Modesty Panel

01 Half Modesty Panel
16″ h, Horizontal grain

02 Full Modesty Panel
Vertical grain

Optional:

Pedestal for Single Source Infeed of electrical, voice, data and av infeeds. Includes removable access panel and full modesty panel face.

For Tables with No Modesty Panel
Specify: Model R/PSS/00 $2,379

For Tables with Half Modesty Panel
Specify: Model R/PSS/01 $1,862

For Tables with Full Modesty Panel
Specify: Model R/PSS/02 $1,212

General Specifications:

1. Tops are 1 1/4" thick with laminate self edge or vinyl/edge

*Functional Seating Capacity based on a usable work surface width of 30".

** Each Technology Center has capacity for up to 6 voice, data or av connectors.

Pre-Configured Meeting Link™ is an easy to specify system of Technology Centers preconfigured to a specific table size. Each Technology Center houses two Electrical Outlets and three Universal Data Plates. The data plates are easily removed to allow for insertion of up to 6 voice, data or AV connectors per Technology Center. The channel also has a Kensington lock attachment capability.

The Technology Centers are mounted under the table top and are ganged to allow for a single source in-feed of the electrical, voice, data and av connections. The electrical in-feed may be specified as either hard wired or soft cord plug in.

Technology Centers for Customizing Meeting Link™ Capacities
12"l x 6"w
Please note – location drawing required*

Model Number	Voice Data and AV Port Capacity	Electrical Outlets	Price	**How to Order:**

Laminate Multi Purpose Tables

Custom Compositions

Fixed, Shared Leg Compositions

Multi Purpose Tables are designed to be easily modified for fixed position, shared leg applications. This allows the Multi Purpose tables to be specified as an economical solution for Presentation/Boardroom compositions or fixed Classroom/Training compositions. Fixed table compositions also allows specification of Nevers Meeting Link™ Technology Centers and modesty panels.

To specify Custom Compositions simply contact customer service at 800.242.2443 with your room requirements.
