make a statement

Beautiful enough to call attention to itself as a stand alone piece, imagine what it says when in a group. The elegance of a Queen Anne table in natural cherry. The style of traditional lines in oak. The sophistication of a Dunchan Phyfe bookshelf in dark cherry. The Americana™ Collection provides a plethora of wood solids and quality veneer options with finely crafted details and finishing touches for capturing the spirit of your company. Tables, presentation support, shelving, storage and more are designed with maximum flexibility and optimum productivity in mind—with each beautiful piece designed to work together. Let this exquisite line turn your conference places into some of your finest spaces.

architectural integrity

Each product is crafted of the finest wood solids and veneers. Details like mitered corners and continuous edge banding seal the deal with finishing touches on a stunning selection of styles.

Ebonized detailing

Starburst pattern

Edge detail

Perfection is found in the details.
Continuous edge banding, ebony and starburst patterns are some of the details that make the Americana™ collection so stunning.

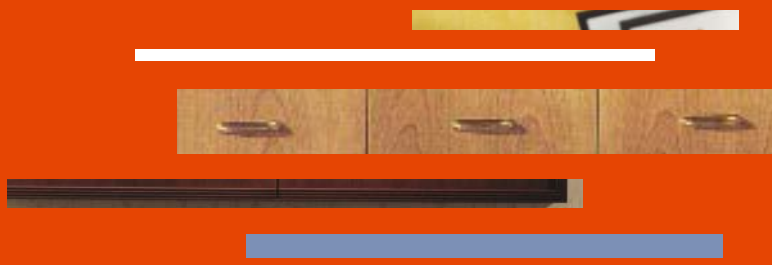
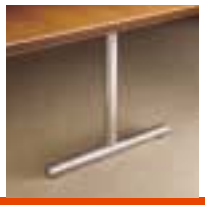
tables

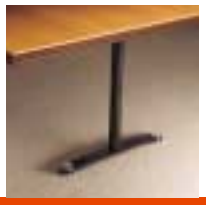
Fine details and beautiful finishes set the stage for great meeting performance. Beautiful conference tables make a stunning focal point. Videoconference tables combine classic looks with advanced technology, while BreakOut tables embrace the beauty of flexibility.

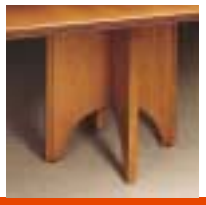


Breakout tables
Arrange and rearrange. Unique table base glides make for swift table reconfiguration, making these a great option for rooms which go from conference to videoconference to training back to conference—all in one day.

tables

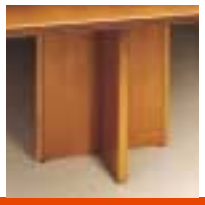






Conference Tables
Whether an intense roundtable discussion, or an informal lunch meeting, one thing remains the same: the table. The Americana™ Collection offers a range of sizes, styles and finishes from which to choose— letting you add a bit of unexpected to the expected.

Modular tables
Simple designs for simple solutions. Rectangles, half-rounds, arc trapezoid tables and more fit together to form the face of your meeting. Our modular tables are available in a wide variety of quality woods and contemporary laminates. All tables come prepared to handle any technological need.



A solid base.
Metal, wood, understated or bold. Choose a base design that best supports your image.

Leading Edge.
From simple lineal edges to traditional moldings, our edgework is the finishing touch on a piece of art.

Media Wall™

It's clear you've got it together. The Americana™ multimedia components fit together to meet your multimedia, storage and presentation needs. Each unit provides easy access to wires, components, and all your storage needs.

storage units, credenzas, lecterns

We credit credenzas.
A table is just a table while a credenza is a window to the world of necessity. Shelves, drawers and pull-out serving shelves are some of the features that make these pieces as useful as they are attractive. Available in an extensive line of wood finishes with an amazing offering of stylish edging. Pull choices include traditional, contemporary and transitional.

Lecterns
Lecterns in styles and finishes as unique as those doing the presenting. Lecterns feature adjustable reading surface, integral power supply, and casters.

mobile units, vcr cabinets

Mobile Units
Now you need it; now you don't. Our mobile units let you easily whisk in and out presentation materials, AV equipment, refreshments and more. Beautiful wood finishes fit into the décor of your spaces.

visual presentation

Nevers® Visual Board Cabinets are designed to help you focus attention, encourage interaction and increase retention. The finely detailed cabinet doors on our Visual Board Cabinet open to reveal a magnetic porcelain writing surface, tackboard surface, paper pad and convenient eraser/marker tray.

ThinLine profile
Results in a sleeker and a lighter frame, mounted flush with the wall.

Dovetail key
Creates a stronger joint, resulting in a more durable cabinet.

Porcelain on doors
Provides another versatile writing surface. An option on wood and wood trim cabinets up to and including 48" x 48".

visual presentation

If these walls could talk.
Let ordinary walls showcase your best work. Mount flowcharts and visual aids. Encourage creative thinking. Display brainstorming efforts. Whatever the use, our wall mount system lets you think big. All components easily attach– and unattach– to track. Projection screen attaches to mounting track, where you can slide it into perfect placement. Choose from porcelain/porcelain or porcelain/takable fabric when you purchase our reversible Presentation Boards. All components break down for easy out-of-sight storage.

Our Projection Screen Cabinet provides handsome husbandry of either a manual or motorized screen. Our patented Wood Easel serves as a stationary display or presentation surface.
