MODEL # PRODUCT FEATURES

PA

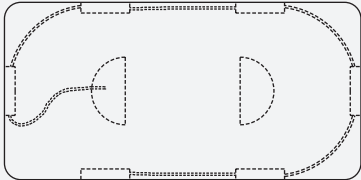

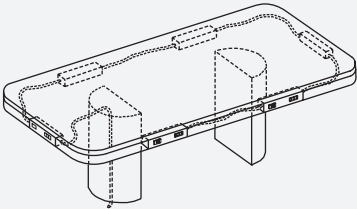

Power Apron

- › Provides power and communication outlets from the conference table perimeter edge
- › Available on all conference tables except Escala series
- › Dimensions: 16"L x 2¹/₂"D x 2³/₄"H, black finish only
- › Features a UL approved 8 wire, 3 circuit electrical system
- › Entire electrical system consists of a hardwire power infeed featuring a modular connector system
- › Each table comes pre-wired with the exception of the power infeed and two-piece top configurations
- › Wood apron is recessed approximately 2" from table edge
- › Apron height is 2³/₄", please allow for 24³/₄" clearance from floor to underside of apron
- › 1 power apron unit is always located at each table end
- › Location of power source in the floor must be provided in order to determine proper infeed location and required lengths of power jumper cables
- › Hardwire power infeed must be wired to the building by a licensed electrician prior to table installation
- › See chart below to determine number of electrical outlets and communication options for various table sizes
- › For each Power Apron unit, please specify one faceplate with A/V jacks from page 356. Add price of selected faceplate/jack combination to price of base model.
