Lighting

## NARRATIVE DESCRIPTION

The dramatic Constellation pendant light fixtures are available in four different sizes measuring approximately 3ft, 6ft, 10ft, and 13ft in diameter. They are composed of metal points made from perforated sheet steel with internal light diffusing panels. Various finishing options for both the metal points and the diffuser panels allow for a large range of visual effects.

The perforated metal points create shimmering moiré effects as you move around the fixtures.

The dichroic diffuser option creates spectacular opalescent colors that are magically captured in the points of the perforated metal shell. The captured light dynamically transitions through a rainbow of colors in an effect like oil on water as you change your viewpoint of the piece.

The wow factor is alive in these unique creations.

## PRODUCT APPLICATION

The Constellation Series can be suspended as individual stars or clustered together to fill larger spaces. Thanks to its inherent scalability, this design works in almost any environment, from private residences to large commercial spaces and ballrooms.

## DESIGNED BY

Adam Jackson Pollock and the Fire Farm Staff, with special thanks to Jim Walch

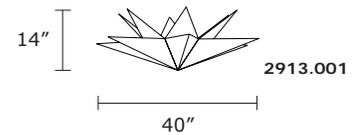

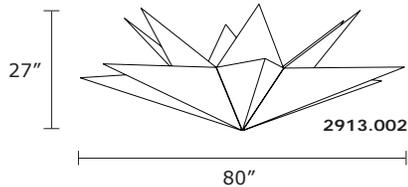

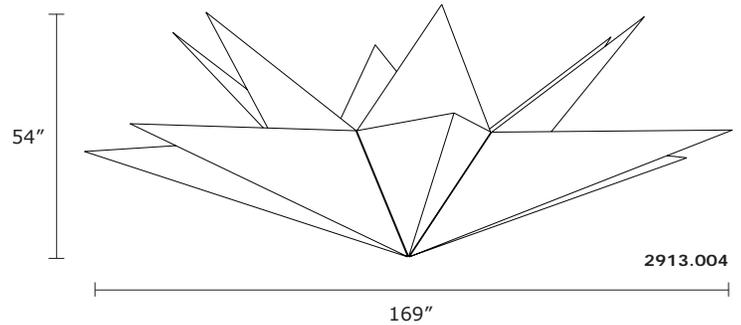

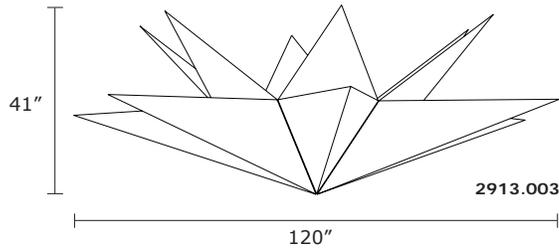

**MANUFACTURED & DISTRIBUTED IN THE USA BY** Fire Farm, Inc.

**PHOTOGRAPHY BY** Bob Griffith

## KEY FEATURES

- Clear, concise installation instructions and efficient design translate to an easier, faster, reliable assembly and lower contractor installation costs
- 'Knock-Down' design minimizes freight costs and transit damage risk
- Scalable to any environment
- Lightweight construction is ideal for retrofit solutions (a 10ft Constellation weighs about 80lbs)
- Easy on-site adjustment of suspension height
- Flexible lamping options
- Custom sizing and finishing available
- Made in the USA

## SPECIFICATIONS

CODE	DIAMETER *	HEIGHT *	WEIGHT *	LAMPS **	MOUNTING ***	CORD/CANOPY ****
2913.001	40 in	x 14 in	@ 15 lbs	1	8 ft adj. cables to canopy on Junction Box	Black
2913.002	80 in	x 27 in	@ 25 lbs	3	8 ft adj. cables to canopy on Junction Box	Black
2913.003	120 in	x 41 in	@ 80 lbs	6	8 ft adj. cables to secure points in ceiling	Black
2913.004	169 in	x 54 in	@ 135 lbs	6	8 ft adj. cables to secure points in ceiling	Black

\* Approximate dimensions

\*\* **Wattage per lamp:**

120v Fluorescent: 32 watt Type GU24 lamp  
 277v Fluorescent: 26 watt Type GXQ4 Lamp  
 120v Incandescent: 100 watt Type A Lamp

Dimmable fluorescent available upon request.

\*\*\* Six (6) adjustable length, 8ft long, fine wire rope cables  
 Longer cables available upon request

\*\*\*\* White or silver available upon request

## STANDARD OPTIONS

### METAL BODY COLOR

**B:** Black  
**W:** White  
**S:** Stainless

### DIFFUSER PANELS

**D:** Dichroic (*Color-Changing*)  
**F:** Frosted White

### VOLTAGE

**120:** 120 volt  
**277:** 277 volt (*26w Fluor only*)

### LAMPING

**F:** Compact Fluorescent  
**I:** Incandescent

Metal Body Color Options

White Steel, Dichroic Diffuser

White Steel, Frosted White Diffuser

## ORDER CODE EXAMPLE

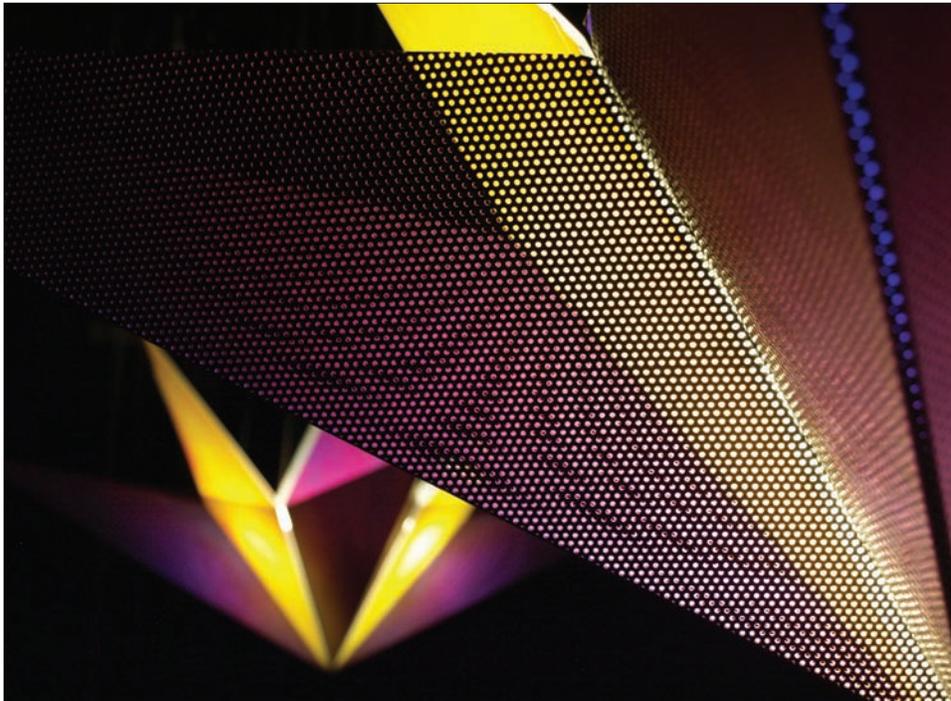

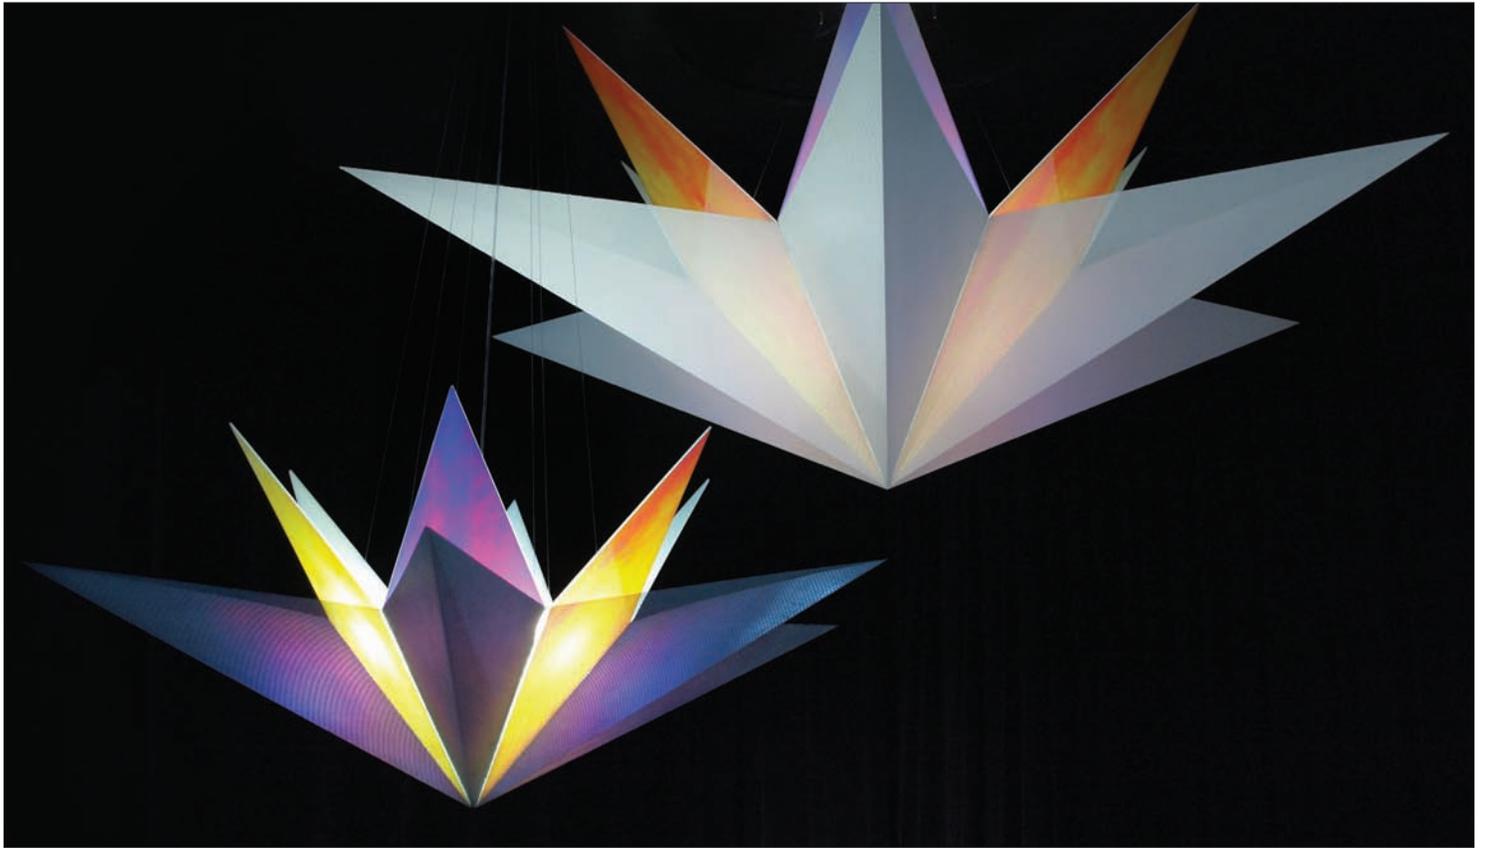

**2913.002BF120F** = 72 in Diameter, **B** Black Metal Body, **F** Frosted White Diffuser, **120** volt, **F** Compact Fluorescent Lamping

## CUSTOM OPTIONS (UPON REQUEST)

- Dimmable fluorescent (please provide minimum dimming percentage and control system)
- Extra-long suspension cables
- Custom body color
- Custom diffuser materials
- Custom sizes up to 13ft diameter
- Custom or international wiring
- White or silver cord and canopy color

 Fire Farm  
Lighting

## ABOUT THE COMPANY

Fire Farm Lighting is a custom lighting design and manufacturing company. In addition to a pre-designed product line, we provide complete creative and fabrication services to conceptualize and execute original designs. Using an ever-expanding variety of materials and processes, we make lights to define space and create exciting environments. We make light to live by.
